LDC 2.16.1.B(10) - Family Division

CODE states Family Division. A parcel of record as of January 1, 1992 that is located in the Rural Land may be subdivided for use of immediate family members for their primary residences. Within the Farmland Preservation area, each new tract and the remaining parent tract must be at least three (3) acres in size. Within the Rural Land outside of the Farmland Preservation area each new tract and the remaining parent tract must be at least one acre in size. In the Urban Area, only parcels of record as of January 1, 1992 which are low density residential property exceeding two acres in size may be divided for the use of immediate family members for their primary residences up to the maximum density of one dwelling unit per gross acre. Immediate family is defined as grandparent, parent, step-parent, adopted parent, sibling, child, step-child, adopted child, or grandchild. A parcel of record shall not be allowed to be divided more than three times as a family division. Minimum access onto a road or street shall be 40 feet in width and shall be provided by recorded deed or by recorded non-exclusive easement. No subdivision to the same family member more than once every five years shall be permitted. Any subdividing of a parcel of record for the purpose of family division shall follow the waiver request process.

APPLICANT requests a waiver to LDC 2.16.1.B(10) - Family Division - My parent (mother) would like to move her residency to this proposed 1-acre division so that our family could stay together and help each other.

LDC 6.8.8.B - Building landscaping

CODE states Landscape areas shall be provided adjacent to or within 25 feet from the building walls and shall extend along 60 percent of the total length of the wall, excluding those areas required for access to the building.

APPLICANT states there is a parking lot directly in front of the building and are no plant beds, preventing the ability to plant 60 percent of the building length. A 5-foot landscape buffer will be proposed instead, on the other side of the road.

6.2. Golden Ocala - WEC North Training Fields Phase 2 - Waiver Request to Major Site Plan in Review
Project #2024010079 #31106 Parcel #21068-002-00
Tillman & Associates Engineering

LDC 2.21.1.A - Major Site Plan

CODE states A Major Site Plan shall be submitted for review and approval prior to the issuance of a Building Permit or prior to the construction of site improvements when proposed improvements exceed any of the following thresholds.

APPLICANT requests waiver to the order of plan approval to allow site disturbance prior to Major Site Plan approval, subject to the owner moving forward at their own risk and to hold on final inspection until Site Plan is approved. Runoff and receiving facility are internal to project. Waiver previously approved for AR 30344.

LDC 2.12.8 - Current Boundary and Topographic Survey

CODE states Current boundary and topographic survey (one-foot contour intervals extending 100 feet beyond the project boundary) based upon accepted vertical datum. Surveys will be less than 12 months old and accurately reflect current site conditions, meeting standards set forth in Ch. 5J-17 FAC. Alternate topographic data may be accepted if pre-approved by the Marion County Land Surveyor.

APPLICANT requests waiver from current boundary and topo. Project is 36 acres amidst a 166 +/- acre parcel. Legal and sketch of description for project boundary shall be provided to Marion County prior to request for final inspection. Waiver previously approved for AR 30344.

LDC 6.13.8.B(7) - Stormwater Conveyance Criteria

CODE states Sizes. Stormwater conveyance pipes and cross culverts shall be a minimum of 18 inches diameter or equivalent. Driveway culverts shall be a minimum of 15 inches diameter or equivalent for residential use and a minimum of 18 inches diameter or equivalent for commercial use. Roof drains, prior to connection to the overall stormwater system, are exempt from minimum diameter requirements.

APPLICANT A) requesting approval for major storm system to include 15-inch RCP provided a hydraulic calculation concludes there is no adverse effect and is included in the stormwater report. B) requesting approval for storm piping 12 inches and under be approved for connections beyond the major storm system (i.e. yard and roof drains). Waiver previously approved for AR 30344.

LDC 6.8.7.C - Parking Areas and Vehicular Use Areas

CODE states A landscaped parking lot island shall be located every ten parking spaces and shall be a minimum of 200 square feet in size with properly drained soils. For paved parking areas within a Primary SPZ, including those with permeable or porous surfaces, parking lot islands shall be completely planted with shrubs or groundcovers; the use of turfgrass is

prohibited.

APPLICANT requests waiver to eliminate required landscape islands and relocate plantings in said islands due to vehicle maneuvering radius and high-profile truck and horse trailers. Waiver requested for more than 10 parking spaces in a row without islands. Required trees from islands will be relocated to the project perimeter.

LDC 6.7.4.A - Shade Trees

CODE states Shade trees are required for all developments excluding residential developments. A. The post-development ratio of shade trees to the area of the site shall be a minimum of one shade tree per 3,000 square feet.

APPLICANT requests waiver since the site was previously calculated and submitted under AR 30344. Additionally, all new planted trees exceed the pre-development area ratio. Waiver previously approved for AR 30344.

LDC 2.12.24 Land Use Buffering/LDC 6.8.6 - Buffers

CODE states Show location and dimensions of required land use buffering. CODE states It is the intent of this section to eliminate or reduce the negative impacts of the adjacent uses upon each other such that the long-term continuance of either use is not threatened by such impacts and the uses may be considered compatible.

APPLICANT requests waiver from providing buffer types and sizes.

Approved PUD Buffer Plan allows for no buffers between projects within the same Golden Ocala PUD boundary. Waiver previously approved for AR 30344.

LDC 2.12.18 - Trees

CODE states All trees 10 inches DBH and larger and groups of trees.

Location of smaller diameter trees may be required depending on habitat and species.

APPLICANT requests waiver since the site was previously calculated and submitted under AR 30344. In addition, no trees are being removed.

- 6.3. Addition to Existing Building - Waiver Request to Major Site Plan**

LDC 6.8.6.K(3) - Buffers

CODE states Description of buffer classifications. The content and composition of each buffer type is described in the following items. The design professional shall use these requirements to design buffers that are thoughtfully designed and enhance perimeter of the development site. Visual screening shall be achieved through the use of proper plant material, arrangement, and layering.

(3) C-Type buffer shall consist of a 15-foot wide landscape strip without a buffer wall. The buffer shall contain at least two shade trees and three accent/ornamental trees for every 100 lineal feet or fractional part thereof. Shrubs and groundcovers, excluding turfgrass, shall comprise at least 50 percent of the required buffer and form a layered landscape screen with a minimum height of three feet achieved within one year.

APPLICANT requests a waiver because the existing concrete pad extends from US Hwy 301 to front of house. Planting trees would hinder customer parking, fire rescue access, and handicap access.
