Good afternoon Anette,

Please see the below response from Alien Engineering on our request for their staff to come to the landfill additional days so that we are not behind on the repair of compactor boxes.

Thanks

George White

Good Afternoon Tyrone,

That is correct. I have been trying to add more welders for about 18 months now. I have very little success in who we have hired. The ones that do show up don't work out due to lack of desire to learn the trade.

The goal is always to have someone out to you twice a week. We continue to work towards that. This week we were there two days and were able to get a good amount of work done.

I can stop by to meet you and George in person to discuss in more detail. Let me know if that is something you would be interested in..

Thank you and I do sincerely apologize for not being able to have someone on-site in a consistent basis

Good morning Juan, could you please send an email stating that because of not being able to employ welders, and being short staff it is causing issues having someone on site at the landfill on a regular basis.
