Corrections	2.16.1.B(10) - Family Division (Resolved) - Corrective Action: INFO/DENIAL RECOMMENDED: GROWTH SERVICES STAFF DOES NOT SUPPORT THE REQUEST AND RECOMMENDS DENIAL – Applicant may then seek appeal to the Board of County Commissioners. The site is a single 3.1-acre tract of 15 tracts in an unrecorded unregistered, metes and bounds "flag-lot" subdivision that was originally an overall +/-45.5-acre site. Currently, "Subdivisions of Record" which are platted and recorded subdivisions or unrecorded subdivisions registered with the Clerk of Courts during a specific time period in the past are not prohibited from pursuing family divisions, that serves to maintain a "consistent and compatible" development form consistent with that subdivision's originally intended form at the time it was created. Eligible properties in unrecorded subdivisions are NOT prohibited from requesting family division approval. HOWEVER, while technically eligible for family division, NO OTHER TRACTS in this subdivision have been divided under the family division provisions. Additionally, records do NOT indicate that easements exist to allow shared flag-lot access and aerial images indicate that each individual flag access is typically developed independently with its own separate individual driveway. Further, SE 180th Street is an unpaved roadway that is not county maintained (and may be subject to maintenance by Sumter County – OCE's input requested/desired). If this family division is approved, a second family division could be pursued, resulting in three total tracts with each being 1+ acres, all of which would be eligible for a primary residence and an accessory single-family cottage/apartment for a total six potential dwelling units on the single tract as it exists today. Further, other tracts within the subdivision may then pursue similar divisions, resulting in up to 45 tracts with each eligible for a primary residence and accessory single-family cottage/apartment for a total of 90 potential dwelling units. This results in a general density of 45 tracts on 45 acres for a density of 1 dwelling per acre, and with accessory residences it would be a functional density of 2 dwellings per acre that is ordinarily a density equivalent to Marion County's Medium Residential future land use designation. - 2.16.1.B(10) - Family Division : If the parcel is located in the rural land, show the division is for use of immediate family members for primary residence. Verify the parcel is not located in a recognized subdivision or an Ag Lot Split. If the parcel is within the Farmland Preservation area show that the new tract and remaining parent tract Area at least 3 acres in size. If the tract is within the rural land but outside of the Farmland Preservation area, show that each new tract and remaining parent tract are at least one acre in size. If the parcel is in the urban area, verify that it is a Low Residential property exceeding two acres in size, and the division does not exceed the maximum density of one dwelling unit per gross acre. Verify that a parcel has not been divided more than three times as a family division. Verify the shared access onto a road shall be at least 40 feet in width and is provided by recorded deed or by recorded non-exclusive easement. Verify the parcel has not been subdivided to the same family member more than once in five years.

Adjacent parcels range in size from 3 acres to 5.07 acres. There appears to be approximately 1,487 sf existing impervious coverage on subject parcel. There are no FEMA Flood Zones or Flood Prone Areas on the property. The applicant should note that a Major Site Plan or a stormwater compliance waiver is required when either parcel is proposed to exceed 9,000 sf impervious site coverage.
