No. of Units		Final Condition	NONE
Remarks			
6/2/25 10:42am SA - Arrived in the area of the listed location while patrolling. I observed what appears to be 4 semis and trailers on the property with no SUP and being zoned A-1. One blue smi cab appears to have no motor and the other blue one doesn't appear as it's moved in some time, another blue blue is hooked to a trailer as well as a black semi cab. One of the trailers appears damage and not useable. There is also a forlift on the property and looks to be some brake rotors.
