Alternate topographic data may be accepted if pre-approved by the Marion County Land Surveyor. (Ord. No. 13-20, § 2, 7-11-2013)

LDC 6.12.12.D - Sidewalks

CODE states at the discretion of the Development Review Committee, in lieu of construction along external streets, the developer may pay a sidewalk fee to the County in an amount necessary to complete construction. This amount shall be determined by the project engineer and approved by the County with payment required prior to final plan approval. The County may use these funds toward the construction of sidewalks throughout the County based on priorities established by the Board.

APPLICANT requests a waiver for approval to pay fee in lieu of sidewalk construction.

LDC 6.14.2.B(1)(a) Connection Requirements

CODE states new development in the Urban or Rural area shall connect to a centralized water system with available capacity if a water line is within a connection distance of 400 feet times the total number of Equivalent Residential Connections (ERCs).

APPLICANT requests waiver because the cost to tie into this water line is expensive.

Also, this line was recently ran possibly as a pass to reach a development nearby. I am back far off the road and a well seems way more practical. The pressure and if line breaks may be an issue. I want to have a well.

Applicant withdrew waiver request
