1. ACTION ITEMS:

1.1 Five-Year Report Update

To continue to be an effective representation of the jurisdiction’s overall strategy for reducing risk to natural hazards, the updated local mitigation plan must reflect current conditions and progress in mitigation efforts. The 5-year plan update is an opportunity to assess our previous goals and actions, evaluate progress in implementing the action plan, and adjust its actions to address current and potential situations. Staff have completed updating and compiling the DRAFT Five-Year Plan and will be discussing those items with the LMS Committee prior to transmittal to FDEM in Tallahassee.

Kenneth Odom opened the discussion regarding this item, and Sarah Wells provided an overview of the changes made in each chapter of the Five-Year Report.

LMS Committee Members voiced their recommendations and comments regarding the current language. Committee Members were asked to closely review and provide feedback on Chapters 6 and 7. Committee Member Jess Shultz discussed the challenges the City of Macintosh faces regarding flooding. Mr. Odom asked her to provide the details of the incidents to facilitate a repetitive loss report to FDEM. Mr. Odom reminded Committee Members that a draft of the Five-Year Plan is due to the state in approximately two weeks.
