| Average Customer Payment Amount | |
| -Average Payment amount - TBD | |
| -Maximum Amount - TBD | |

InfoSend Data Processing, Print and Mail Pricing

| Document Production Summary | | EFFECTIVE AUG 1, 2022 | |
|--|-----------------------------|-----------------------------|--|
| Statements | \$0.103 per document | \$0.129 per document | |
| One 8.5 x 11 Page with Return Envelope | | | |
| Letters | \$0.103 per document | \$0.129 per document | |
| One 8.5 x 11 Page with Return Envelope | | | |

Finished mail pieces are delivered to the USPS within one (1) business day. If samples (proofs) are requested then the mailing will be completed within one day of sample approval. File upload deadline for next-day mailing is 1:30PM local time at the production facility designated for your account. If samples are required then they must be approved by 3:30PM local time for the file to be mailed by the next business day.

The below provides the components of the summary price given above. All pricing is based on "Client Volume Assumptions" listed below and excludes applicable sales tax.

| Professional Services Rate (per hour) | \$125 | \$125 |
| Returned Mail Handling | \$0.35 per reported returned mail piece | \$0.35 per reported returned mail piece |

COPY

Fee Explanations

Data Processing

- **Setup Fee - Express PDF Input:** requires a final composed PDF is uploaded to InfoSend for processing. Clients maintain control of document look and feel, but InfoSend designs a program to parse the necessary data from the PDF
- **Setup Fee - Data Only Input:** requires the client provide a flat data extract. InfoSend creates, hosts and maintains an application to generate documents. Existing document design is copied.
- **Document Re-Design Fee:** using the "Data Only Input" method, InfoSend's Client Services Team assists in redesigning the format of printed documents to improve communications or to take advantage of new printing capabilities.
- **Data Processing Fee:** per document image that is processed by the InfoSend system for output.

Printing and Mailing Service

- **Print Fee:** price includes baseline number of colors printed on the front and back of the document. All variable and static images are dynamically imaged onto white form with a perforation.
- **Postage:** clients are invoiced for the exact postage used. Leveraging InfoSend's USPS compliance and expertise, clients are provided the lowest possible USPS automated rates when client batches qualify.
- **Optional Color Upgrades:** Different options are available at different prices. Numbers fewer than 4 equal individual colors, 4 equals full color. The number 1 means black or grey. All sheets are billed at the same rate, the price for the sheet with the highest number of colors is the applicable fee. **4 equals CM K (full color).**
- **Batch Fee:** assessed to cover InfoSend costs when batches transferred to InfoSend fall below threshold.
- **Inline Insert Print Fee:** price for inserts printed on demand as additional pages. Allows for more dynamic customer messaging without the extra pre-production lead time and overhead.
- **Excess Pages Handwork Surcharge:** surcharge is assessed per mail piece (not per page). This surcharge only applies to multiple page bills that have too many pages to be inserted into a #10 envelope by machine. This surcharge covers the necessary manual labor required to process these mail pieces.
- **Address Updates – NCOALink or ACS:** per reported update. InfoSend electronically reports the addresses it received in your data that need to be updated because the customer filed a Change of Address Report with the USPS. Cost is per update.

Materials

- **Paper Stock:** white paper stock with or without perforation. Paper is 8.5x11" and 24lb. Price includes all inventory costs. A larger 8.5x14" format is available at a higher material cost and higher printing cost.
- **Outgoing #10 Envelope:** #10 InfoSend Standard Double Window Outgoing Envelope. Includes security tint printed on the inside of the paper stock and clear film that prevent the contents of the envelope from being viewed. Sourced with sustainably logged paper (SFI).
- **Return #9 Envelope:** #9 InfoSend Standard Single Window Return Envelope. Includes the same security tint and SFI paper as the #10.
- **Outgoing Flat Envelope:** single window envelope, only used for multiple page statements that do not fit in the #10 envelope.

Insert Services

- **InfoSend Produced Inserts:** utilizing InfoSend printing and/or design services, inserts can be produced by InfoSend. Price quoted on request.
- **Envelope Messaging (Snipes):** custom messages and images can be printed onto the standard InfoSend #10 double window envelope as a more cost-effective alternative to pre-manufactured custom envelopes. The price depends on the artwork – number of colors and whether it prints on one or both sides of the envelope, as well as order quantity. Price is quoted upon request.
- **Electronic Inserts:** fee per digital image of a physically produced insert included in the PDF copy of a document. Ensures that client representatives and client customers can get the same information in the electronic bill as would go out physically.
- **Inserting Fee:** client provided or InfoSend produced inserts to be included with InfoSend produced mail. Additional fee applies if insert arrives at InfoSend but requires folding prior to insertion. Setup fees may apply for programming selective inserting. InfoSend-printed inserts are quoted upon request.

Optional Document Services

- **Enhanced Print Quality:** the baseline print image quality for transactional documents such as statements and invoices is 600 x 600 DPI. Work produced from InfoSend's Anaheim facility can be printed at an enhanced image quality at an additional cost. This option uses high-definition pigment ink & variable drop sizes to achieve a perceived 1200 x 1200 DPI image quality.
- **Print Image Archiving:** fee per document to process, index, and store a document as a PDF for a set number of months. PDFs are securely accessed using an InfoSend website application, and includes USPS mail tracking for all outbound First Class mailed documents. Setup fees may apply depending on configuration needs.
- **Print Image Archive API Monthly Support Fee:** a flat monthly support fee to provide API access to documents in the InfoSend Print Image Archive. InfoSend will work with the designated third parties that a Client chooses, and provide support and open access to API calls on a monthly basis.
- **Final Doc Transfer FTP:** each completed InfoSend batch is indexed and transferred to you via FTP or SFTP to store on your own network. InfoSend's standard Batch File format is one PDF per batch with an XML companion file providing meta data and page numbers. If the client requires a custom scheme, including individual PDFs per each image in a batch, the Custom fee applies. Note setup fees may also apply for some custom setups.
- **Professional Services Fee:** per hour and performed only upon request for customizations made to processing program or document format after go-live. Work is only started after receiving client approval of a formal quote.
- **Returned Mail Handling:** InfoSend will provide electronic reporting of mail that is returned by USPS, saving clients the hassle of receiving and opening returned mail to update records. All records which are not delivered will be securely destroyed and recycled after reporting.
- **Remit Tracking:** for clients utilizing the Print Image Archiving service. InfoSend can also track inbound mail from customers utilizing an included remittance stub in the outbound mail. With Remit Tracking clients will be able to see when a customer responded to the original mail piece, as well as get a daily report of inbound mail with an estimated value of payment remittances based on the outbound mail.
