I, and pretty much everyone in Palm Cay, is absolutely **AGAINST** rezoning the property the leads into the subdivision. Todd Rudniaryn came to our clubhouse last Monday as a representative of the builder. What he **FAILED** to disclose was that he was the owner of the storage facility that was recently built at the front **AND** that **HE** is the owner of the property that is being rezoned !!

Todd has an immense outcome with this decision as he is to profit not only by the sale of his property to the builder but the hope of these future residents will use his storage facility. It is a conflict of interest for him to represent the builder and fail to tell everyone just how much he will profit as well.

In short, it is too dense to have so much on such a small property at the entrance of a major subdivision. We will effectively, be **BLOCK IN** because of additional traffic on what is basically two dinky roads that are the **ONLY** entrance and exit for Palm Cay.

Please consider this fact when considering your decision to rezone.

Mary Faith Phillips
10822 SW 77th Court

I am objecting to the two proposals stated above that has come before the Board. I have found that there has been a proposal prior to the current proposal before you. There is one that denies the proposed study and a current study. I do not believe that the board has factored in the differences properly. With the traffic getting worse on State Rd. 200 and the addition of numerous businesses' the street involved I believe cannot

handle properly or safely the amount of increased traffic. It only takes 1 life or many to put a valuation on what the board is doing. This is a retirement area and people drive, walk, or use devices to get to their destination. Thank You for giving expressing my views. Another factor is that I feel that there is something more going on due to the factors presented to residents and the board.

Re: case # 22-S05 220307Z & 22-S05 PZ

Ingress access to property from FL 200 westbound is limited to left-turn only across three lanes onto SW 106th PI (no traffic signal). Egress from property is limited to SW 106th PI, which in turn is limited to FL 200 as right-turn (eastbound) only (no traffic signal). In order to go westbound from SW 106th PI onto FL 200, drivers must currently turn right onto FL 200 (eastbound) and then immediately cross two more lanes of eastbound traffic to left-turn lane at traffic signal at Pine Run and make a U-turn. Raw traffic counts do not reflect the actual safety difficulties drivers currently face in accomplishing this. Whether this property is developed as commercial or residential, this situation requires a plan to address it and ensure the safety of the community, both those living, working, and visiting there as well as the drivers on FL 200.

Proposed rezoning from commercial to multi-residential at entrance of Palm Cay. I implore you to leave it commercial. Changing it will have a dire decline in our safety and quality of life. Please put our safety over money.

February 13, 2022

Kathy Bryant
Commissioner
Marion County Board of Commissioners
601 SE 25th Avenue
Ocala FL 34471

Dear Commissioner:

I live in the Palm Cay community off SR 200. It is my understanding that you are my representative at the Board of Commissioners.

I have concerns about the change of land use on the road out of Palm Cay. We only have one entrance and exit. Adding 300+ cars to that one lane road would be a disaster. It is hard enough to leave now, making a right turn with the traffic on SR200. Just imagine how far back the only exit line would be adding many other cars to the Palm Cay cars. There are times during the day when there are cars waiting to turn and cannot get out due to heavy traffic on SR200.

Thank you for your consideration.

Very truly,

Isabelle Grenitz-Hutchins

To the Planning and Zoning Division,

I object to the case number above, When I bought my house over eleven years ago I was told by the realtor that would never be anything built behind me as this was Green open space. Oak Run is a private community for 55 and older residents.

Having townhomes and apartments in back of my house would not be in the best of interest for the people who reside in Oak Run. We don't need trespassing from the residents of the townhomes and apartments coming in to use our facility's.

We pay monthly, out of our amenities for the use of the pools, shuffleboard, basketball, horseshoes, tennis, etc.

The only way that I would support this would be if they built at least a eight foot wall dividing the properties and the wall would have to be at least one hundred to two hundred from the back of my property. I don't even think this would help, because trespassers have a way of finding a way in.

Sincerely, Mr Arthur Kreideweis and Mr. Bruce Enyingi

CAUTION: THIS MESSAGE IS FROM AN EXTERNAL SENDER

This email originated from outside the organization. Do not click links, open attachments, or share any information unless you recognize the sender and know the content is safe. Report suspicious emails using the "Phish Alert" button in Outlook or contact the Helpdesk.

Dear Zoning Board

This letter is in regards to zoning request **22-S05 220307Z**.
My name is Dean M. Daugherty, 10720 SW 85th Terrace, parcel 35773-006-04

I would like to suggest that I can't really oppose or approve this request until some concerns have been addressed. I am not really opposed or in favor but would like some involvement in what exactly is done behind my home.

I just want to discuss some concerns I have. First I have never approach a zoning change and hope to do this in an acceptable fashion and if not please give me tips on what you as a commission would like to know or the manner to present the information so that you can make an informative, fair and reasonable decision.

My first question is in regard to the entrance to Palm Cay will be directly affected by this development and according to law only the residents of Palm Cay that are within 300 ft of zoning change are contacted. A point that should be understood that the changes to traffic and construction affects the entire community of Palm Cay and I don't believe there is adequate time for all the Palm Cay residents to even be aware of this change and what the end results will be. I also don't believe an adequate study of what the increase traffic will do or if current entrance and road is adequate for the increase traffic. The zoning change signs placed at the entrance do not tell the entire story. Also with 354 new units placing more pressure on the entrance and exit of Palm Cay nothing is mentioned to address this.

Second I could not find any information on what market these units will be targeting. The developer is using the Palm Cay name in the naming of the townhouses and apartments which would tend to make one believe it is targeted for 55 and over community but I can not find the answer to that but it would make sense since developer is using the same name that has been associated with 55 and over for 30 plus years. Since all the communities around this land are 55 and over it would seem logical to keep in step with existing population profiles.

Third the information I received shows buffer plan A being proposed which means no barrier between Palm Cay and the new development. I don't know if that is the Palm Cay HOA responsibility or the developer or combination of both but I do know as living in a gated community security is a prime reason for living here and to have no division between the two is not a preferred reality. I don't know if an earthen bunker is an option for noise reduction.

Fourth is will the new communities have similar restrictions as Palm Cay in regard to noise and when hired labor can do work such as between 8-6 and no holidays. If the restrictions do not equal each other there is potential to have landscape work being done at 6-6:30 in the morning during summer or anytime which would disturb the tranquility Palm Cay residents currently enjoy. There are also pet restrictions that also should be on par with each other.

I hope these concerns seem reasonable and fair and would appreciate answers to them if you have them or can direct me to whom to contact that would have the answers. Thank you so much for any assistance. In summary I feel two week notice of zoning change and then three weeks later commissioners voting on it is not adequate time for the neighbors to access, meet and determine and present a response. It almost seems rushed.

Sincerely

Dean M.Daugherty

To The Planning and Zoning Commission:

Our names are Jose and Rosemarie Moncada. We purchased our house in Palm Cay for the following reasons:

- Seclusion
- Quietness
- Peaceful
- No High Traffic in the neighborhood/entrance way
- No Fear of being robbed
- Having over crowding
- Having young people in the streets while coming into and leaving
- Hearing loud noises late at night and on weekends
- Our property value going down
- Seeing Trash and upkept areas
- Not seeing the wildlife or the woods coming and going
- Destroying nature
- Taking more time for emergency vehicles to come
- Barrier Walls around

There is more, but these are a few. We love the way our area is now and hope and pray it stays that way. Having Townhomes and Apartments built would be a terrible thing. If something needs to go there then maybe some retail, but not all the woods. There are animals living there too.

You say the Barrier Walls will keep out the noise, well it does not. Not At ALL. Nor does it keep anyone from coming over them. We know this because we live in the DC area and if anyone wants anything that badly they will find a way to get over.

We are totally against the Planning and Zoning of the new construction.

Our address is 8410 SW 107th Lane, Ocala, FL 34481. Lot 17, Block F. Our phone number: 301-520-1283.

Sincerely,
Jose and Rosemarie Moncada

Reference case 22-S05 220307Z

Frank Joseph
10772 SW 85th Terrace
Ocala, FL 34481
Parcel 35773-006-06

I object to the requested zoning changes because this will adversely affect the public interest of the residents of the Palm Cay community, consisting of 802 homes in a gated 55+ community.

The quality of life of the individuals in this community will forever be adversely affected by the additional traffic and associated accidents. With a 50% increase from additional traffic to, it will be much even more dangerous for the senior citizens in our community to enter traffic safely onto a busy State Route 200.

The Safety and Security of our community will forever be changed from a quiet 55+ Retirement Community. The addition of apartment buildings and townhouses, adjacent to our community, will undoubtedly bring additional crime and drug use in our area.

The building of roads and structures on the adjacent property will adversely affect the properties that abut the newly proposed development. Rainfall runoff undoubtedly will result in additional erosion to property and is not compatible with land use in the surrounding area.

These are the concerns of many in our community and I ask you not to allow these zoning changes to be made at this time.

Thank you,

Frank Joseph

Marion County Planning and Zoning Division

Case # 22-S05 220307Z, # 22-S05 PZ
Roger and Janet Demary
8306 SW 106th Pl, Ocala, FL 34481
Block D, Lot 3

As 19-year residents/owners at 8306 SW 106 Place in Palm Cay, we believe that the proposed zoning change will adversely affect all of the current and future residents of Palm Cay. Palm Cay is an age restricted (over 55) community with over 790 homes. There is only one single lane entrance and one single lane exit for all residents. There is no traffic signal at the intersection of SW 106 Place and State Road 200. A turning lane is located at that intersection so in addition to traffic entering Palm Cay there are also many cars making a U-turn to the several businesses located just north on SR 200.

If 354 more housing units are allowed to be built, ingress and egress to Palm Cay will be a major problem for every resident in Palm Cay and those who will live in the proposed development. This will also greatly impede ambulance and any other emergency vehicles access to reach our over 55 community.

It should also be noted that when the traffic study was completed in November 2020, traffic was very light due to covid-19 with some businesses closed and many people limiting their outside activities due to their fear of getting this virus. In addition, there were few snowbirds here due to covid travel restrictions. If a traffic study were to be completed today the numbers would be much higher.

In closing, once again, we'd like to reiterate that the requested zoning change will adversely affect all residents of Palm Cay and is not compatible with an over 55 community. The

increased traffic will also impact Oak Run, Pine Run and OTOW which are all age restricted retirement communities located within a short distance of the requested zoning change.

Roger and Janet Demary
8306 SW 106 Place

Zoning Board:

Case # 22 S05 220307Z and case # 22-S05 PZ

I live in the Palm Cay Subdivision off State Road 200 and am writing you to ask that you deny the request to change the zoning on above listed cases. Commercial use is current zoning status and should remain the same. With over 750 homes already using the access road off 200 adding another 350+ housing units would not be in the best interest for traffic flow, human safety or environmental issues. I ask that you deny this non-compatible zoning request and keep future development of this property zoned commercial.

Thank you.

Objections to proposed zoning changes:

1. We in Palm Cay only have one entrance which is on SR 200 with a right turn only. Adding 228 apts and 126 town houses of working age people would greatly increase the traffic on this roadway 106th Pl. With only 1 working person per unit would be 354 more trips in and 354 more trips out on any given workday.
2. I can see no allowances for school buses and there stops. Also children would probably be accessing 106th pl riding bikes and such adding to the congestion.
3. We are a 55 and over development, having more than our share of emergency vehicles in and out, any delays could be life threateing.

My objections to the proposed zoning change is as follows:

1. we have 790 home sites in Palm Cay with only one road in an out, which goes to SR 200 with a right turn only - adding 126 town homes and 228 apts for working aged individuals would increase the traffic to such an extent as we would have difficulty entering and leaving our development.
2. there doesn't seem to have been allowances made in the proposed plans to accommodate schools buses. Where will they stop and where will he turn around to exit.
3. The increased traffic will interfere with emergency vehicles entering and leaving this development. Since we are 55 and over we have more of such incurrences than a all ages development.

Hello:

I am registering my objection to the proposed zoning change bordering Palm Cay 55+ complex. My reasons for said objection are listed below:

1. **TRAFFIC:** Building the proposed 248 - 354 residential units will greatly increase traffic on SW 106 place. Palm Cay has one lane for entry and one lane for exit off of and onto state road 200. This adversely affects public interests.
2. **NOISE:** Building the proposed 284 - 354 residential units will greatly increase the noise level throughout the Palm Cay 55+ community. This will adversely affect public interests.
3. **SAFETY:** Building the proposed 284 - 354 residential units will result in safety concerns resulting from children playing in the entrance and exit roadways and easements, as well as an increase in property crimes in the gated Palm Cay community due to a lack of walled or fenced separation between the Palm Cay community and the proposed residential units. This will adversely affect the public interests.

The purpose of an age-restricted community such as Palm Cay is to provide its residents with a quiet, safe and uncrowded lifestyle. The proposed residential units will greatly and negatively impact the lives of the residents of Palm Cay. I respectfully request that the proposed zoning change be denied.

Thank you for your consideration in this matter.

RE: Case 22-S05-2203077Z and Case 22-S05 PZ

We are residents of Palm Cay, a Deed Restricted 55+ Community. We are most distressed at the possibility of 354 residences being built on the land that runs on either side of the entrance drive to Palm Cay. The residences will not be age restricted but "affordable" family residences, mostly rental properties.

Our major concerns:

- **Traffic:** Palm Cay has 745 homes, with at least half those homes having 2 (or more) cars. Let's say the number of cars is 900 cars. Not everyone who lives here is retired. Many of us go to work everyday. That coupled with normal activities such as shopping, doctors and veterinary appointments, haircuts, leisure activities, etc. people are exiting and entering through our gate all day long, into the evening. That entrance is the sole access to Palm Cay, so we have no option of another way to exit. Traffic leaving onto SR 200 is very often backed up, waiting for traffic to clear. Returning is the same problem, regardless of whether using the U Turn across from our entrance or continuing to the traffic light at Oak Run. Assuming that the bulk of the proposed residences will have multiple cars, with working parents and perhaps teenagers, the number of additional cars using the entrance on SR 200 could easily approach 1,000. Adding additional vehicles to an already difficult traffic situation, definitely will adversely affect the public interest.
- **Safety:** With an older population, access to emergency services is vitally important. We are concerned that the increase in traffic in and out of the driveway could cause a delay in response time; a delay that may mean the difference between life and death. Additionally, the driveway is narrow and winding, and the prospect of children playing, riding bikes, scooters, skate boards, etc. in the driveway becomes a distinct possibility. With many older drivers living in Palm Cay, whose reaction time may be slowed, it seems like the recipe for a tragic disaster. We also have a concern for our safety when in our home, and yard. There will be so many people residing so close, what will be preventing them from crossing into our community? All of these factors will adversely affect our safety, security and the public interest.
- **Sound buffer:** We currently have wooded land between us and SR 200. With the development of the proposed properties, that sound buffer will be gone. Just the clearing and building of the Storage facility

over the past year has greatly increased the traffic noise. Like most people, the quiet and privacy was one of the things that attracted us to buy our home in Palm Cay. Losing that peace and quiet will adversely affect the public interest.

- The driveway from SR 200 to the gatehouse of Palm Cay is not maintained by the county, but by Palm Cay. The drastic increase of heavy traffic during construction and increased use from the homes being built will likely result in more repairs and regular maintenance. That expense will be shouldered by Palm Cay homeowners, with increased fees. This will adversely affect the public interest.

It is our sincere hope that you will consider all of our concerns when making a decision on the proposed development. Approving this development as a PUD, instead of straight residential will affect our entire community adversely.

Thank you,

Jeff and JoAnn Hauber

This letter is in regards to the following cases:

Reference case 22-S05 220307Z

Reference case 22-S05 PZ

We are hoping we can convince you not to put townhomes and apartments in front of Palm Cay. This is a 55+ community. Prospective buyers for the houses in our community will be put off automatically when they realize they have to pass through apartments and townhomes in order to get to the houses here. And that of course, would make the price of the houses here plummet. Other 55+ communities have their own separate entrance.

I know I would not buy into a 55+ community that was surrounded by children, teenagers and young adults. All of us have moved here for the peace and quiet, and that would be taken from us with the stroke of a pen. We would much rather see it zoned commercial and restaurants and shops built in front. Something that makes Palm Cay more attractive to future buyers. Not to mention, the people who reside here would benefit greatly from the additional shops and restaurants.

Please let the 2 above mentioned properties remain zoned as commercial. Thank you for your time and consideration.

Sincerely,
Larry & Ida Hall
7750 SW 112th LN

Dear Board of County Commissioners,

I reside in Palm Cay at 11152 SW 79th Ave, Ocala, FL 34476, and I believe the rezoning proposed in 22-S05 220307Z & 22-S05 PZ is ill advised for two primary reasons.

Traffic:

The road on 106th Ave cannot handle the additional traffic. I understand the developer's proposal indicates 106 cars utilize this road at peak hour, but this is a misleading statement. As a retirement community the Covid pandemic greatly reduced movement in the Palm Cay community, and at the time of the study the pandemic was in full swing. An additional 350 proposed units would easily double or even triple the estimated road use. Please keep in mind Palm Cay is a retirement community, so traffic from the new development will be substantially higher. This will also hold true for the left turn/U turn lane on the southbound side of 200. The U-turn is already problematic as they have the right of way and there is no way to know whether a driver is turning left or making the U-turn.

Solution:

Ideally installing a four-way traffic signal synchronized with the Pine Run traffic light, which would allow Palm Cay residents to make a left-hand turn onto 200. Note the Pine Run community on the west side of 200 and 1/8 mile north of Palm Cay has a traffic light with only 880 homes. The additional 350 homes would place Palm Cay with more than 1150 homes.

In lieu of a traffic light placing a No U-turn sign would be of some help.

Note: the extension added to the left lane on 200 turning into Pine Run was a near complete waste of money. At best it was a half-hearted attempt to solve the Palm Cay U turn issues on to 200, and it barely made a difference if any. Going forward, please collaborate with DOT to spend our money more wisely. It would be far better to plan ahead 5-10 years rather than being reactive.

There is one other means of alleviating the traffic problem by completing SW 79th Terrace out to SW 103 St Rd. This would split the traffic on 106th Ave in half with no need for traffic lights. If this project is approved, the developer will make millions from it. Let's make sure the citizens of Palm Cay and Marion County do not end up paying out of our pockets because the Board of Commissioners failed to plan ahead.

Students:

Second, I do not believe the area schools are properly prepared to handle the additional students from this new development. Every school in the Palm Cay area is nearing maximum capacity according to Florida law. Based on a national average of 1.9 children per household the new complex would add 600+ students to the school system. This would mean hiring an additional 20 to 30 teachers. Are that many unemployed teachers available in Marion County? An additional issue is

school buses. 600 students would require at least 5 more buses and drivers who seem to be hard to find. Also, where will the bus stop be located and will a crossing guard be hired to protect the children? Will a sidewalk be installed from the corner of Palm Cay/200 to the new development for the children's safety?

Lastly, I am disappointed the Board of Commissioners only requires notice to residents within 300 feet of a new project. Had one of our Palm Cay residents not informed our community about this project, it would have gone unnoticed until it was too late to ask questions. In fact, it appears to me this project has been in the works for quite some time as the developer has paid for drawings, studies, and maps that are fairly expensive to make. Is it possible the developer has already received preliminary approval from the board?

Thank you for your time reading my concerns and I would appreciate a response to my questions.

Sincerely,
James Gray

Dear Zoning Officials,

This email is our objection to the proposed zoning change to the vacant property bordering SW 106 Place, on either side before the entrance to Palm Cay, a 55+ Community. Palm Cay, an age restricted community, provides its residents with a safe and quiet living.. We have listed the reasons we feel are important for denying the proposed zoning.

First, building the proposed 248 - 354 residential units will greatly increase traffic on SW 106 place. The entrance to Palm Cay is a 2 lane road to enter and exit. Also with the right turn only to exit onto SR 200 there will be a backup of traffic not only at that point but also those wanting to make a U-turn at the next traffic light to head west on SR 200.

Second, building the proposed 284 - 354 residential units will result in safety concerns to the residents of Palm Cay. The close proximity of these proposed complexes to the residents of Palm Cay and being a 55+ Community, they are targets for personal and property crimes, not necessarily by the residents there but those coming and going into those complexes.. Statistics show the elderly are more susceptible to be victims of crime.

Third, is the disturbances and noise that are typical in apartment and townhome complexes.

We feel the proposed complex will negatively impact our community of Palm Cay and our way of living.

We therefore request that the proposed zoning change be denied.

Thank you for your time and consideration.

Sincerely,

Joseph Worton Jr. and Patricia Vance
11093 SW 78 Avenue
Ocala, Fl. 34476

Palm Cay and Proposed Development

There is a proposed development on either side of the front entrance of Palm Cay to build townhomes and apartments with 345. Units, not people. At the moment it is zoned commercial. These are not 55 and up so there will be families in these residences or at least 2 adults meaning there will be over 700 people needing to be served by the emergency services. That is not including kids. The over 800 elderly residents would be forced to share the small road the leads to our community off 200. Many of us live in the back of the community already making it hard for emergency services to get to us quickly as it is. People will be lined up to get in and out of the community making it impossible for emergency services to get through. The development will be under construction for approximately two years meaning there will be a constant flow of trucks and large machinery on the road we share impeding anyone from getting into our neighborhood quickly. I feel that it will put a huge strain on the fire department to be able to handle over a thousand more people endangering the people of Palm Cay.

In my experience, the risk of fire is much higher in apartment buildings than in commercial businesses. This poses yet another threat to Palm Cay residents. If there are emergency vehicles up front and we have an emergency in the back what will happen? I'm concerned that the city has not planned and figured out how our fire department is going to continue to service this mass influx of people.

There will also be more accidents on 200 with this influx. I believe resources are being spread too thin for the emergency services in place to handle this and the people will suffer because of it.

This property is currently zoned commercial, and I believe for everyone's sake it should remain that way for everyone's safety.

I hope you will take this into consideration and bring these concerns to the powers that be.

Many Thanks,

Vanessa Drazich - Palm Cay Resident

To Whom It May Concern: ID # 220307Z REZONING

These signatures are petitioning against the "Rezoning" of property commercial to Urban Residential [22-S05] by Regional Business [LAND USE]. Hearing Date 02/21/2022 5:30 P.M.

Board of County Commissioners 03/15/2022

This property is adjacent to the **Palm Cay over 55 Community, Ocala, Florida.** This property will use THE SAME SW 106th Place roadway from and to State Route 200, Ocala, Florida.

This roadway is the **ONLY entrance and exit for Palm Cay Residents (792 homes).**

Most of these residents purchased their homes knowing the adjacent property was commercial and not residential.

The increase of people from the proposal of 354 units will alter the safety and serenity of the Over 55 Community of Palm Cay Residents. Some have health issues and require Emergency Care. The increased volume of people will jeopardize their safety because of the increased volume of vehicles. **There is NO TRAFFIC LIGHT ONTO STATE ROUTE 200.**
