The Admin Office shall be serviced on Saturday so as not to obstruct traffic flow or impede customer access, and shall exclude holidays unless previously approved in writing. Work done during unauthorized times is subject to non-payment unless approved by MCU or authorized representative.

10.4 When work by COUNTY forces, other Contractors, or weather conditions of a temporary nature prevent CONTRACTOR from cutting any areas, and such conditions are eliminated during the period designated for that mowing cycle, MCU may require CONTRACTOR to cut these areas as part of the cycle without additional compensation or penalty for exceeding the time allowed.

10.5 Normally mowed areas which are saturated to the point where equipment use would damage turf shall not be mowed when such conditions exist. CONTRACTOR will exercise good judgement and not wait for MCU to say an area is too wet to mow. These areas shall be mowed at subsequent times as determined by MCU.

10.6 Grass shall be cut to 2 ½ ", NO EXCEPTIONS.

10.7 CONTRACTOR shall have its ground maintenance crew supervised by a qualified foreman at all times.

11. MAINTENANCE OF TRAFFIC:

11.1 Maintenance of Traffic (MOT) is CONTRACTOR's responsibility.

11.2 Traffic shall be maintained in accordance with the Florida Department of Transportation Roadway Traffic Design Standards, 200 Edition, Index 600 Series and applicable revisions.

11.3 CONTRACTOR shall provide adequate traffic control devices for the protection of the public and Contractor's employees throughout the work area.

11.4 MOT is calculated into CONTRACTOR bid items; no separate payment shall be made, including TMA.

12. QUALITY:

- 12.1 All grass vegetation shall be cut down to a height of not more than 2 ½ “.
- 12.2 Mowing areas of different widths shall be connected with smooth flowing transitions. The use of hand tools, such as weed eaters, when used on slopes or around appurtenances shall comply with a 2 ½ “ requirement. Completed areas will be reviewed for acceptance by MCU. Areas determined unsatisfactory by MCU shall be documented and presented to CONTRACTOR and Procurement; when determined incomplete, site shall be re-mowed at no additional cost. Areas requiring re-mowing shall be completed within the cutting cycle time. Sites not re-mowed within the cycle may be removed from the payment, or contracted to another mower, with the Liquidated Damages paid from CONTRACTOR’s held contingency.
- 12.3 Attempts shall be made to not blow clippings onto private property (lawns, vehicles, buildings, structures, etc.)
- 12.4 Any paved areas must have any clippings removed by blowers or other means.
- 12.5 All items damaged, as a result of CONTRACTOR’s, or his subcontractor’s operations, such as buildings, pipes, drains, wells, lamp posts, landscaping, fence, turf, etc., shall either be repaired or replaced by CONTRACTOR, at his expense, in a manner prescribed by COUNTY’s representative, prior to any payment for that cycle. Any damage to COUNTY Treatment facilities or LS site are to be reported immediately and repairs done by appropriately licensed and approved personnel. Any damage discovered during site verification will be assumed a result of CONTRACTOR operations, and will be reported to CONTRACTOR to provide him ample opportunity to make repairs. Repairs not made prior to the end of the cycle may be repaired by COUNTY, with the associated actual costs deducted from CONTRACTOR’s held retainage.

13. BASIS OF PAYMENT:

- 13.1 Payment shall be full compensation all mowing operations specified. CONTRACTOR shall be compensated for each cycle less any missed sites or unsatisfactory sites completed and accepted as satisfactory by COUNTY. CONTRACTOR can only request, and will be paid, at the end of a mowing cycle (and all sites mowed to the satisfaction of COUNTY). Requests for partial payments will not be accepted.
- 13.2 CONTRACTOR shall invoice MCU no more than once per month in the Winter Season and up to twice per month in the Summer Season. Copies of all daily reports which have been approved by MCU shall be included with each invoice; only those approved daily reports will be paid. It will be the responsibility of CONTRACTOR to provide all reports required for payment. Payments will be processed and mailed within thirty (30) days within receipt of CONTRACTOR invoice.
- 13.3 The quantities of work in this contract may vary due to changes in areas of exclusions, weather conditions, limits of construction and other indeterminate variables.
