Regarding DP20200005/JG711Z2, this device was purchased October 10, 2019 and warranty expired on October 11, 2022. It was assigned to the Building Safety Department and logged consistently by Terry Roach. It was last audited and shown as used on July 6, 2021. The device model has been generally reported as not very conducive for staff and had general complaints ranging from the magnet keyboard is not user friendly for mobile staff, the batteries overheat and expand, and they will lock up. This has been general, although anecdotal, feedback from County staff regarding the Latitude 7200 2-in-1 tablets. The understanding is devices out of warranty should be replaced and disposed. With this information and the device being out of warranty, the device was sent to e-waste disposal.
