### III. NOTICE OF PUBLIC HEARING

Consistent with Chapter 163.3225(2)(a), F.S., notice of public hearing was mailed to all property owners (70 owners) within 300 feet of the subject property on October 5, 2024. Consistent with Chapter 163.3225(2)(a) and LDC Section 2.7.3.E., due public notice was published in the Ocala Star-Banner on October 8, 2024. Evidence of the above-described public notices are on file with the Growth Services Department and is incorporated herein by reference. As of the date of the initial distribution of this staff report, no letters of opposition or support have been received.

### IV. ANALYSIS

On May 21, 2024, the Board approved Rezoning Application 240505ZC, Hidden Little Lake Weir, LLC., granting a Manufactured Housing Park (P-MH) zoning for PID 45509-000-00, that is a ±10 acre property surrounded by the Del Webb Spruce Creek Country Club and Little Lake Weir Subdivision projects (See Attachments C and D). With the proposed rezoning request, the applicant proposed, and the Board concurred with, providing a Developer's Agreement to establish development and design standards for the anticipated manufactured housing park project. Staff has also attached the applicant's initial letter of intent regarding the project and the concept plan illustration provided at the May 21, 2024, hearing; however, the concept plan is not identified as an exhibit to the Agreement.

The Agreement addresses the many of the items raised with consideration of the zoning request consistent with the Board's discussion. The Agreement provides for an age-restriction for persons 55 and older per State and Federal requirements, the community's ownership and rental operation, buffers, access maintenance, type/size of units, amenities, and providing for project review, with a 30-year Agreement duration consistent with the then discussion.

The maximum number of units was a staff and community concern due to the site's limited access (a single dead-end roadway stub-out) and Land Development Code (LDC) requirements for a second access for residential developments of 50 units or more. The Agreement includes the limit for a maximum of 49 residential units for the project (Attachment B, Section 2.2). The applicant's final Agreement address the dead-end roadway stub-out's maintenance and possible improvements related to the stub-out including potential signage and fencing (Attachment B, Section 2.4). The Agreement as proposed is acceptable to staff including the County Engineer regarding the dead-end roadway stub-out maintenance, and is recommended for approval.

Table A below identifies each section of the Agreement, and provides staff's remarks regarding the Agreement sections.
