RE: Extension request for Case 161207Z

Growth Services Staff:

Case number 161207Z was approved on February 21, 2017 to be rezoned to PUD, and went into effect on April 3, 2017. Based on Marion County Land Development Code 4.2.31 L. (3)- Upon written application, the Board may authorize extensions of any time period specified hereinabove, at any time prior to the expiration of such time period but each such extension shall not exceed one year at a time. Therefore, our client would like to formally request a one-year extension. Due to unforeseen situations and shortages our client was not able to proceed. They are now in a position to consider moving forward, thus needing a one-year extension. It is my understanding that the developer's agreement has been terminated (16-DT6). Thank you in advance for your assistance in this matter.

Please contact this office if there are any other concerns. Otherwise, please provide the date and time the BCC will consider this request.

Sincerely;

Jon Harvey
Planning Technician
