## PROJECT LOCATION

Deer Path and Salt Springs

Sean,

Per your request Razorback LLC is pleased to provide the following Change Oder.

**SCOPE OF WORK**

- Perform an interior rehab per the plans and specifications at Deer Path
- Perform an interior rehab per the plans and specifications at Deer Path
  - Interior rehabs to include sandblasting the interior of the hydro tank to strip and remove the existing coating and surface rust inside the tank. Once the metal has been prepped, apply an NSF rated Tnemec coating that is approved by DEP for potable drinking water systems. Apply approximately 16mils of thickness to the entire interior of the tank. This coating needs 7 days to cure before the water can be turned back on. A loaner tank can be set up onsite for an additional charge, but will have to be scheduled based on the availability of the loaner tank. When the tank is ready to be placed back online 2day bac-t samples will be taken. Any additional work will require a change order.

**PRICING**

Line #	Change in Scope of work	Unit Quantity	Unit	Unit Rate	Amount
5.10	Interior Rehab Salt Springs 20k Gallon Tank	1	LS	\$21,000.00	\$21,000.00
5.11	Interior Rehab Deer Path 25k Gallon Tank	1	LS	\$22,000.00	\$22,000.00
