Re: Binding Letter of Interpretation of Modification to Vested Rights Status for
Marion Oaks – Unit 1, Tract A-T Area
Application Number BLIM-05-2007-017
Final Order Number: DCA09-BL-258

Dear Mr. Woods:

The Department of Community Affairs (Department) has evaluated your Application for a Modification of the Binding Letter of Vested Rights issued for the Marion Oaks development located in Marion County, Florida. Based on the information contained in the Application and the supplemental information received during the review process, the Department enters the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

1. The Applicant is Philip D. Woods, P.E., the authorized representative for the Deltona Corporation. The Deltona Corporation owns Marion Oaks, Unit 1. On July 25, 1986, the Department issued VRS-586-041 determining that Marion Oaks Units 1 through 10 were vested from development of regional impact (DRI) review pursuant to subsection 380.06(20), Florida Statutes (F.S.). The Applicant proposes to modify Tracts A-T, G, and H of Marion Oaks, Unit 1, in order to realign a roadway.

2. Marion Oaks Unit 1 is situated in Sections 10, 11, 14, 15 & 22, Township 17 South, Range 21 East, Marion County, Florida. It is located just west of I-75, and the northern boundary of the property is adjacent to County Road 484.

♦ HOUSING AND COMMUNITY DEVELOPMENT 850-488-7956 (p) 850-922-5623 (f) ♦

The Proposed Modifications

3. The portions of Unit 1 at issue consist of a vacant commercial parcel designated as Tract A-T, which is approximately 32.09 acres in size. Also at issue are the adjacent buffers which are designated as Tracts G and H, adjacent to the north of Tract A-T. Tracts G and H, which are approximately 2.81 and 2.78 acres in size, respectively, are buffers between Tract A-T and CR 484. On the existing plat, S.W. 30th Terrace Street bisects Tracts G and H to provide access to CR 484. The plat also shows an internal access road known as Citrus Drive that runs parallel to Tracts G and H. A copy of the existing plat is attached as Exhibit A.

The Applicant proposes to modify the development plan to improve the traffic pattern for a shopping center development. Specifically, the street referred to as Citrus Drive will be vacated. The street referred to as S.W. 30th Terrace will be vacated as well. In lieu of this road or right of way, a portion of Tract A-T will extend through Tracts G and H to create the new entrance point. The entrance will be located directly across the street and centered on S.W. 29th Avenue (Lawrence Boulevard). The revised Tract G will be extended to the entrance, and the revised Tract H will be shortened to the entrance. A copy of the proposed plat is attached as Exhibit B.

The proposed modifications are as follows:

Tract	Existing (acres)	Proposed (acres)	Change (acres)	Change (%)
Tract G	2.81	3.05	+0.24	+8.5%
Tract H	2.78	2.71	-0.07	-2.5%
Tract A-T	32.09	35.09	+3.00	+9.3%
Right of Way	3.17	0	-3.17	-100%
Total	40.85	40.85	0	

Analysis under subsection 380.06(4)(e), F.S.

10. Pursuant to subsection 380.06(4)(e), F.S., in determining whether a proposed substantial change to a development of regional impact concerning which rights had previously vested pursuant to subsection 380.06(20), F.S. would divest such rights, the state land planning agency shall review the proposed change within the context of:

- (a) Criteria specified in subsection 380.06(19)(b), F.S.;
- (b) Its conformance with any adopted state comprehensive plan and any rules of the state land planning agency;
- (c) All rights and obligations arising out of the vested status of such development;

- (d) Permit conditions or requirements imposed by the Department of Environmental Protection or any water management district created by section 373.069, F.S. or any of their successor agencies or by any appropriate federal regulatory agency; and
- (e) Any regional impacts arising from the proposed change.

11. In determining whether the proposed changes to the vested plan of development would be substantial, the Department applied the following criteria under subsection 380.06(19)(b), F.S.:

- (a) 380.06(19)(b)(8): An increase in commercial development by 55,000 square feet of gross floor area or of parking spaces provided for customers for 330 cars or a 10-percent increase of either of these, whichever is greater, and;
- (b) 380.06(19)(b)(11): A decrease in the area set aside for open space of 5 percent or 20 acres, whichever is less.

12. In applying the criteria of subsection 380.06(19)(b)(8), F.S., to the proposed changes to the vested plan, the Department finds that the proposed modifications will result in an increase in commercial area by 3.0 acres on tract A-T. Although the vested development plan does not specify a Floor Area Ratio (FAR) for commercial, the County assumes a FAR of 0.70 for commercial areas pursuant to its Comprehensive Plan Policy 1.24, Commercial Future Land Use Category. Accordingly, the changes to tract A-T will result in an increase of 91,476 square feet of commercial area. This amount is a 9.3 percent increase in commercial development area, which is less than the ten percent threshold under section 380.06(19)(b)(8), F.S.

13. In applying the criteria of subsection 380.06(19)(b)(11), F.S., to the proposed changes to the vested plan, the Department finds that the proposed modifications will result in an increase of 0.17 acres of open space, which will not decrease the area set aside for open space pursuant to section 380.06(19)(b)(11), F.S., cited above.

14. Pursuant to subsection 380.06(4)(e)(2), F.S., which requires the Department to review the proposed change in the context of the State Comprehensive Plan, the Department viewed and applied the goals and policies of the State Comprehensive Plan as a whole to the proposed modified plan. When reasonably applied, the Department finds that the proposed modifications are consistent with the goals and policies of the State Comprehensive Plan.

CONCLUSIONS OF LAW

1. Pursuant to Findings of Fact numbers 10 through 14, the proposed modifications do not constitute a substantial change to the vested development plan. Therefore, pursuant to subsection 380.06(4)(e), F.S., the proposed modifications to the vested plan of development do

not divest any rights the developer has acquired under subsection 380.06(20), F.S. The modified plan of vested development for Marion Oaks, Unit 1, Tracts A-T, G, and H are described above in Finding of Fact numbers 1 through 3 and depicted on Exhibit B.

ORDER

1. The proposed modifications to the vested plan will not divest the applicant's right to develop. If those changes as described in your Application for this binding letter are approved by the local government and are incorporated into a new development order, they will constitute the vested plan of development and must be followed by you or your successor(s). If any further changes are proposed for this project, they should be submitted by the applicant, or any successor, to this agency so that these changes may be reviewed cumulatively with the modified plan. Should any of the representations made by the applicant be substantially changed, further binding letter review may be required.

2. This binding letter has been issued pursuant to the procedural requirements of subsection 120.57(2), F.S., and constitutes final agency action. A notice of rights is attached to this binding letter and is incorporated herein by reference.

3. This binding letter determination does not obviate the applicant's need to comply with all other applicable federal, state, or local permitting procedures.

Any questions regarding this determination may be directed to Chris A. Wiglesworth, Planner, at (850) 922-1826.

Sincerely,

Mike McDaniel, Chief
Office of Comprehensive Planning
