## b) Interlocking Tiles

- (1) Snap a chalk line on the sub-floor 24" from one wall in your room. Snap another chalk line on the sub-floor 24" from an adjacent wall. You should then have a set of perpendicular lines making an approximate 90-degree angle.
- (2) Begin laying the interlocking tiles along one of the chalk lines, snapping the locks together as you go. Typically, Interlocking tiles are not Glued Down.
- (3) Leave the perimeter of the room open until the field is installed.
- (4) Continue locking the tiles together in successive rows until the field area is covered.
- (5) Go back and cut in the tiles along the walls in the room. Leaving a gap at the wall roughly the thickness of the material being installed is recommended.
- (6) This method should maximize the usage of the tiles and the strength of the interlock mechanism while minimizing the number of cuts that need to be made.

## IV. Cleaning and Maintenance Instructions

*Note: Sealing the floor is not a necessary step and in fact, it is discouraged in very abusive applications (e.g., Health club free weight areas or ice hockey rink perimeter flooring). However, high color percentage floors (>40% EPDM Color) or areas that experience foot traffic will greatly benefit by being sealed.*

### A. Maintenance for Un-sealed Floors.

1. Amorim Rubber Flooring can be cleaned much like carpeting.
2. Daily vacuuming is encouraged to keep dust to a minimum.
3. If the flooring cannot be fully cleaned with a vacuum, a damp mopping with a mild soap and water solution will usually be sufficient.

**Note: Cleaners containing natural or synthetic Oils should not be used on Amorim Rubber Flooring products.**

Examples of these types of cleaners would be:

Murphy's® Oil Soap

Pine Sol®

Goo Gone®

And similar products

It is important not to get the flooring too wet as this may have an adverse affect on the adhesive system employed.

- a) Change the soap and water solution often!
4. Use a wet vacuum to remove excess water from the flooring.
5. Be sure to use a clean mop. This will keep your floor smelling fresh and clean.
