In our meeting, the following suggested plan was presented by Commissioner Campbell and supported upon by our Board.

1. Marion County to be made whole in past finances they have spent on the new building design.
2. We would continue to occupy the existing building, in current agreement, until we outgrow the building and build a new building in the future at our discretion.
3. There is a deadline for when Lake and Seminole Counties have to complete transition to their own district and exit current facility.

Good morning,

As I understand, some of us have their regular board meeting today and this topic may be discussed.

In addition to the options provided by Seminole and Lake counties, we are discussing other arrangements to present at the June 19th committee meeting. The additional scenarios include maintaining both districts as they are and continue to

operate the Leesburg facility and build a satellite office in Summerfield at a much smaller scale. Another option would be, if Lake County would reconsider its position, to continue operating in Leesburg, reexamine the cost allocation methodology and construct a satellite office in Summerfield when needed. If those scenarios fail, propose not to object to the reassignment of Lake County and continue to operate in Leesburg until State and local funds are secured to build the new facility in Summerfield.

Please consider those ideas as you discuss this topic.

Thanks.
