OVERVIEW

On March 11, 2021, the President of the United States signed the American Rescue Plan Act (RESCUE). This act provides for specific funding allocations directly to state, local, and municipal government agencies. The funds provide substantial flexibility for each jurisdiction to meet local needs—including support for households, small businesses, impacted industries, essential workers, and the communities. These funds also deliver resources that recipients can invest in building, maintaining, or upgrading their water, sewer, and broadband infrastructure.

The RESCUE plan provides for Marion County to invest in water and sewer infrastructure, making necessary investments to improve access to clean drinking water and to support vital wastewater infrastructure.

Proposition 1: Marion Oaks – North Water Infrastructure System ~ \$10,000,000

- Utilizing the existing central water transmission/distribution system, connect and close all of the dead end mains within the North Marion Oaks System and provide a closed system that will service all of the properties within the Marion Oaks – North Area (reference Figure 1-1).
 - Approximately 132,036 linear feet of 6-inch, 8-inch, 10-inch, 12-inch, and 16-inch water mains to complete the central water system in the Marion Oaks – North Water Area.
 - Include valves, fire hydrants, water services, air releases assemblies and all required appurtenances to complete the central water system.

Proposition 2: Silver Springs Shores Water and Wastewater System Improvements ~ \$40,000,000

- Initiate Septic to Sewer conversion in the Silver Springs Shores (SSS) area of Marion County through three (3) phases of work that will include approximately 500 properties in each phase. Each project would include lift stations, manholes, gravity sewer mains, force mains, sewer services to each property in the phases, and all required appurtenances to complete the central sewer system.
- The projects will also include water mains (varies sizes), valves, fire hydrants, water services, air releases assemblies and all required appurtenances to complete the central water system with the installation of the sewer system.
