**Section 15 – Default/Termination.** In the event FIRM fails to comply with any of the provisions of this Agreement, COUNTY may terminate this Agreement for cause by first notifying FIRM in writing, specifying the nature of the default and providing FIRM with a reasonable period of time in which to rectify such default. In the event the default is not cured within the time period given, COUNTY thereafter may terminate this Agreement for

cause upon written notice to FIRM without prejudice to COUNTY. In the event of termination of this Agreement for cause, COUNTY will then be responsible to compensate FIRM only for those services timely and satisfactorily performed pursuant to this Agreement up to the date of termination. **Section 17 – Termination for Loss of Funding/Cancellation for Unappropriated Funds.** The obligation of COUNTY for payment to FIRM is limited to the availability of funds appropriated in a current fiscal period, and continuation of this Agreement into a subsequent fiscal period is subject to appropriation of funds, unless otherwise authorized by law.

**Section 18 – Use of Other Contracts.** COUNTY reserves the right to utilize any COUNTY contract, State of Florida contract, city or county governmental agencies, school board, community college/state university system, or cooperative bid agreement. COUNTY reserves the right to separately bid any single order or to purchase any item on this Agreement if it is in the best interest of COUNTY.

**Section 19 – Employee Eligibility Verification.** COUNTY hereby affirms it is duly registered, uses, and adheres to the practices of the E-Verify system, including those outlined in the clauses below.

Beginning January 1, 2021, Section 448.095, F.S., requires FIRM to register and use the E-Verify system to verify the work authorization status of all newly hired employees and prohibits FIRM from entering into this Agreement unless it is in compliance therewith. Information provided by FIRM is subject to review for the most current version of the State or Federal policies at the time of the award of this Agreement.

By previously signing the ITB Acknowledgment and Addenda Certification Form, and this Contract, FIRM has agreed to perform in accordance with the requirements of this subsection and agrees:

- a) It is registered and uses the E-Verify system to verify work authorization status of all newly hired employees.
- b) COUNTY shall immediately terminate FIRM if COUNTY has a good faith belief that FIRM has knowingly violated Section 448.09(1), F.S., that is, that FIRM knowingly employed, hired, recruited, or referred either for itself or on behalf of another, private or public employment within the State an alien who is not duly authorized to work by the immigration laws or the Attorney General of the United States.
- c) If FIRM enters into a contract with a subcontractor, FIRM shall obtain from the subcontractor an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien.
- d) FIRM shall maintain a copy of such affidavit for the duration of this Agreement and provide it to COUNTY upon request.
- e) FIRM shall immediately terminate the subcontractor if FIRM has a good faith belief that the subcontractor has knowingly violated Section 448.09(1), F.S., as set forth above.
- f) If COUNTY has a good faith belief that FIRM's subcontractor has knowingly violated Section 448.09(1), F.S., but that FIRM has otherwise complied, COUNTY shall promptly order FIRM to terminate the subcontractor. FIRM agrees that upon such an order, FIRM shall immediately terminate the subcontractor. FIRM agrees that if it should fail to comply with such an order, COUNTY shall immediately terminate FIRM.
- g) If COUNTY terminates this Agreement with FIRM, FIRM may not be awarded a public Agreement for a least one (1) year after the date of termination.

- h) FIRM is liable for any additional costs incurred by COUNTY as a result of a termination under this subsection.
- i) Any such termination under this subsection is not a breach of this Agreement and may not be considered as such.
- j) FIRM shall maintain records of its registration, use, and compliance with the provisions of the E-Verify system, including the registration and use by its subcontractors, and to make such records available to COUNTY or other authorized governmental entity.
- k) To comply with the terms of this Employment Eligibility Verification provision is made an express condition of this Agreement and COUNTY may treat a failure to comply as a material breach of this Contract.

**Section 20 – Force Majeure.** Neither FIRM nor COUNTY shall be considered to be in default in the performance of its obligations under this Agreement, except obligations to make payments with respect to amounts already accrued, to the extent that performance of any such obligations is prevented or delayed by any cause, existing or future, which is beyond the reasonable control and not a result of the fault or negligence of, the affected Party (a "Force Majeure Event"). If a Party is prevented or delayed in the performance of any such obligations by a Force Majeure Event, such Party shall immediately provide notice to the other Party of the circumstances preventing or delaying performance and the expected duration thereof. Such notice shall be confirmed in writing as soon as reasonably possible. The Party so affected by a Force Majeure Event shall endeavor, to the extent reasonable, to remove the obstacles which prevent performance and shall resume performance of its obligations as soon as reasonably practicable. A Force Majeure Event shall include, but not be limited to acts of civil or military authority (including courts or regulatory agencies), acts of God, war, riot, or insurrection, inability to obtain required permits or licenses, hurricanes and severe floods, pandemics and epidemics.

**Section 21 – Counterparts.** Original signatures transmitted and received via facsimile or other electronic transmission of a scanned document, (e.g., PDF or similar format) are true and valid signatures for all purposes hereunder and shall bind the Parties to the same extent as that of an original signature. Any such facsimile or electronic mail transmission shall constitute the final agreement of the Parties and conclusive proof of such agreement. Any such electronic counterpart shall be of sufficient quality to be legible either electronically or when printed as hardcopy. COUNTY shall determine legibility and acceptability for public record purposes. This Agreement may be executed in one or more counterparts, each of which shall for all purposes be deemed to be an original and all of which shall constitute the same instrument.

**Section 22 – FIRM Conduct:** These Guidelines govern FIRM while doing work on COUNTY property, as well as its employees, agents, consultants, and others on COUNTY property in connection with FIRM's work or at FIRM's express or implied invitation.

- **Courtesy and Respect:** COUNTY is a diverse government institution and it is critical that FIRM and its employees conduct themselves in a manner that is lawful, courteous, businesslike, and respectful of all staff, guests, or visitors.
- **Language and Behavior:** FIRM and its employees cannot engage in behavior that is rude, threatening, or offensive. Use of profane or insulting language is prohibited. Harassment of any type, including sexual harassment is strictly prohibited. Abusive, derogatory, obscene or improper language, gestures, remarks, whistling, cat calls or other disrespectful behavior cannot be tolerated. Roughhousing, fighting, fisticuffs, physical threats, destruction of property, vandalism, littering, or physical abuse of anyone on COUNTY property is not permitted under any circumstance.
- **No Weapons, Alcohol, or Drugs:** The use, possession, distribution, or sale of any weapon, alcohol, illegal drug, or controlled dangerous substance by FIRM or its employees is prohibited. Offenders will be removed from COUNTY property and/or reported to law enforcement.
- **Smoking:** FIRM and its employees are not permitted to smoke in or near any COUNTY buildings.
- **Fraternization:** FIRM and its employees may not fraternize or socialize with COUNTY staff.
- **Appearance:** FIRM and its employees are required to wear appropriate work wear, hard hats and safety footwear, as the case may be, while on the job. Articles of clothing must be neat and tidy in appearance, and cannot display offensive or inappropriate language, symbols or graphics. COUNTY has the right to decide if such clothing is inappropriate.

FIRM is responsible for its employees, agents, consultants and guests. If prohibited conduct does occur, FIRM will take all necessary steps to stop and prevent any future occurrence. Any breach of these conditions will result in the removal of the person responsible from COUNTY property and prohibited actions could result in the immediate termination of any or all of FIRM's contracts with COUNTY.

**Section 23 – Authority to Obligate.** Each person signing this Agreement on behalf of either Party individually warrants that he or she has full legal power to execute this Agreement on behalf of the Party for whom he or she is signing, and bind and obligate such Party with respect to all provisions contained in this Agreement.

**Section 24 – Law, Venue, Waiver of Jury Trial, Attorney's Fees.** This Agreement and all the Contract Documents shall be construed according to the laws of Florida and shall not be construed more strictly against one party than against the other because it may have been drafted by one of the parties. In the event of any legal proceeding arising from or related to this Agreement; (1) venue for state or federal legal proceedings shall be in Marion County, Florida, (2) for civil proceedings, the parties consent to trial by the court and waive right to jury trial, (3) the prevailing party shall be entitled to recover all of its costs, including attorney fees.

- Train client representatives on the features and functionalities available to client

### Samples, Parallel Testing, and Training

During the last phase of the implementation, output and application web access is provided to clients for User Acceptance Testing (UAT). Once the application build is validated and accepted by the client, the application is put into Parallel Testing mode. During this time clients are encouraged to transfer copies of live data to InfoSend to be automatically processed and output for review, simulating go-live. Clients check the web application and output to ensure that it is satisfactory and any requested revisions will be completed before go-live. Any payment related applications are tested to ensure payment deposits are received and reconciled. Clients are also trained on how to use InfoSend tools and reporting to support the application at this time.

The hour-long, web-based training covers:

- File uploads
- Sample review and approval
- Managing document messages and insert requests
- Accessing archived reports
- Managing User Permissions
- Performing research and support for customer activity
- Payment reconciliation (for payment applications)
- Submitting, viewing and closing support requests

- Assign a project leader who will serve as the main point of contact between the client and agency

### InfoSend Archiving Services

InfoSend's Customer Communications Management (CCM) platform offers a robust, secure, redundant archive service that clients can rely upon to access documents rendered, modified or processed by InfoSend. InfoSend has built a flexible set of options to ensure clients and their customers can access documents in the context that they prefer, including in existing CIS/ERP or billing applications. InfoSend offers PDF delivery and hosted models.

With all options, InfoSend is capable of including the insert communications as additional pages in the PDF (einserts), ensuring clients and their customers are viewing the complete document which was distributed.

**1. Delivery via Final Doc Transfer (FDT):** for clients who prefer to store and host PDFs within another software environment, InfoSend is able to deliver the PDFs via Final Doc Transfer in the following ways:

- **Secure FTP Transfer:** upon batch completion by InfoSend, a PDF file of the batch will be sent via secure FTP to the client with a companion XML index file containing standard details of the PDF batch (account #, PDF page number, etc).
- **Custom Secure FTP Transfer:** upon batch completion by InfoSend, the PDF data can be delivered in a complete batch or broken down and sent as one PDF file per account or document. In addition, InfoSend can match PDF file naming conventions or provide index data in a specified format. InfoSend will work with the client to define the workflow, and fees may apply depending on complexity.

**2. Hosted via Print Image Archive (PIA):** for clients who prefer to outsource the storage and only retrieve PDF documents on demand, InfoSend provides two ways to view documents via the Print Image Archive:

1. **Search via the InfoSend Portal:** upon batch completion, InfoSend will archive the documents for the client to retrieve on demand from a web interface. By logging into the InfoSend Portal, client representatives can access the archive and search for documents according to standard criteria such as account number or date. In addition, InfoSend provides up to 5 custom search fields, specific to the client's data (examples: "bill cycle" or "notice ID"). Documents can be viewed on screen, downloaded to the desktop or emailed.

2. **Web Services Integration:** upon batch completion, InfoSend will archive the documents for the client to retrieve on demand via an encrypted API query string. This secure option is best suited for clients who have the capacity to integrate the InfoSend archive into a software package on their end. This web interface allows outside solutions to perform document presentment within their own application framework without having to host an archive.

**Mail Tracking:** all clients using the hosted Print Image Archive from InfoSend are automatically given Mail Tracking. With Mail Tracking, the USPS data is provided via the IMb Tracing™ service, where all qualified mail with an Intelligent Mail Barcode that is scanned at a sort facility is logged. This data provides insight into the estimated delivery time frame of mail to the customer. *Only available with mail sent using 1st Class Postage, and not available in some cases with postcard mailings.*

**InfoSend.com Web Administration**

A key component InfoSend's Customer Communications Management (CCM) platform is the full web administration provided to clients on www.infosend.com. The InfoSend website allows clients on a 24/7 basis to upload, view, approve, control messaging on output, as well as interact with InfoSend Client Services.

**Secure SaaS Cloud Solution**

InfoSend's website is fully hosted at www.infosend.com and does not require clients install any software beyond a modern web browser (Chrome, Firefox, Internet Explorer, Safari, etc). The solution utilizes the latest encryption technology required to ensure communications are unable to be intercepted or accidentally exposed. All sessions occur over HTTPS with TLS encryption, and each client user must be uniquely registered to an email address by an Administrator.

The website provides options to set both user roles and permissions, ensuring only the appropriate level of access is granted to the user at the client organization.

**File Submission and Job Tracking:**

Clients are able to upload files directly to InfoSend over the HTTPS connection, allowing users to send the input data for InfoSend processing on demand (note: PGP file encryption and secure FTP also available).

All status on the fulfillment of client output is displayed via the online tool: confirmation of receipt, processing status, sample file and approval status (optional), Printing, Quality Control, Mail Prep and Confirmation of distribution. Clients are able to check the "Viewed" box to confirm that the batch was reviewed internally.

## Sample Approval

This optional workflow allows clients to download a sample of the output, with an included Process Summary report of the input/output counts, Inserts to be included, suppressions and a postage estimate. The sample file can contain the entire output or a subset based on client criteria. Upon approval, the sample output is released for production and distribution by InfoSend.

## Message Manager

This free account management tool is a custom-built web-based application that allows clients to control the messages that print on output. Clients can schedule the messages months or even years in advance, as well as set criteria to assign unique messages to different types of customers, or even to individual accounts. A PDF preview displays the message in the actual font that will be used.

Below you will find a list of all messages your company currently has pending:

### Print Image Archive and Mail Tracking

This optional service is a document archiving tool used by client customer service representatives to download PDF copies of any document that InfoSend produces. This web application allows authorized users to query the database by customer name, account number, or up to **three other custom fields**. Clients can also email documents directly to customers from the application.

Clients who purchase the Print Image Archive service then you will automatically get Mail Tracking at no additional cost. The USPS data is provided via the IMB Tracing service, where all qualified mail with an Intelligent Mail Barcode that is scanned at a sort facility is logged. This data provides insight into the estimated delivery time frame of mail to the customer. *Only available with mail sent using 1st Class Postage, and not available in some cases with postcard mailings.*

## Fee Explanations

### Data Processing

- **Setup Fee - Express PDF Input:** requires a final composed PDF is uploaded to InfoSend for processing. Clients maintain control of document look and feel, but InfoSend designs a program to parse the necessary data from the PDF.
- **Setup Fee - Data Only Input:** requires the client provide a flat data extract, InfoSend creates, hosts and maintains an application to generate documents. Existing document design is copied.
- **Document Re-Design Fee:** using the "Data Only Input" method, InfoSend's Client Services Team assists in redesigning the format of printed documents to improve communications or to take advantage of new printing capabilities.
- **Data Processing Fee:** per document image that is processed by the InfoSend system for output.

### Printing and Mailing Service

- **Print Fee:** price includes baseline number of colors printed on the front and back of the document. All variable and static images are dynamically imaged onto white form with a perforation.
- **Postage:** clients are invoiced for the exact postage used. Leveraging InfoSend's USPS compliance and expertise, clients are provided the lowest possible USPS automated rates when client batches qualify.
- **Optional Color Upgrades:** Different options are available at different prices. Numbers fewer than 4 equal individual colors, 4 equals full color. The number 1 means black or grey. All sheets are billed at the same rate; the price for the sheet with the highest number of colors is the applicable fee. 4 equals CMYK (full color).
- **Batch Fee:** assessed to cover InfoSend costs when batches transferred to InfoSend fall below threshold.
- **Inline Insert Print Fee:** price for inserts printed on demand as additional pages. Allows for more dynamic customer messaging without the extra pre-production lead time and overhead.
- **Excess Pages Handwork Surcharge:** surcharge is assessed per mail piece (not per page). This surcharge only applies to multiple page bills that have too many pages to be inserted into a #10 envelope by machine. This surcharge covers the necessary manual labor required to process these mail pieces.
- **Address Updates -- NCOALink or ACS:** per reported update. InfoSend electronically reports the addresses it received in your data that need to be updated because the customer filed a Change of Address Report with the USPS. Cost is per update.

### Materials

- **Paper Stock:** white paper stock with or without perforation. Paper is 8.5x11" and 24lb. Price includes all inventory costs. A larger 8.5x14" format is available at a higher material cost and higher printing cost.
- **Outgoing #10 Envelope:** #10 InfoSend Standard Double Window Outgoing Envelope. Includes security tint printed on the inside of the paper stock and clear film that prevent the contents of the envelope from being viewed. Sourced with sustainably logged paper (SFI).
- **Return #9 Envelope:** #9 InfoSend Standard Single Window Return Envelope. Includes the same security tint and SFI paper as the #10.
- **Outgoing Flat Envelope:** single window envelope, only used for multiple page statements that do not fit in the #10 envelope.

### Insert Services

- **InfoSend Produced Inserts:** utilizing InfoSend printing and/or design services, inserts can be produced by InfoSend. Price quoted on request.
- **Envelope Messaging (Snipes):** custom messages and images can be printed onto the standard InfoSend #10 double window envelope as a more cost-effective alternative to pre-manufactured custom envelopes. The price depends on the artwork – number of colors and whether it prints on one or both sides of the envelope, as well as order quantity. Price is quoted upon request.
- **Electronic Inserts:** fee per digital image of a physically produced insert included in the PDF copy of a document. Ensures that client representatives and client customers can get the same information in the electronic bill as would go out physically.
- **Inserting Fee:** client provided or InfoSend produced inserts to be included with InfoSend produced mail. Additional fee applies if insert arrives at InfoSend but requires folding prior to insertion. Setup fees may apply for programming selective inserting. InfoSend-printed inserts are quoted upon request.

### Optional Document Services

- **Enhanced Print Quality:** the baseline print image quality for transactional documents such as statements and Invoices is 600 x 600 DPI. Work produced from InfoSend's Anaheim facility can be printed at an enhanced image quality at an additional cost. This option uses high definition pigment ink & variable drop sizes to achieve a perceived 1200 x 1200 DPI image quality.
- **Print Image Archiving:** fee per document to process, index, and store a document as a PDF for a set number of months. PDFs are securely accessed using an InfoSend website application, and includes USPS mail tracking for all outbound First Class mailed documents. Setup fees may apply depending on configuration needs.
- **Print Image Archive API Monthly Support Fee:** a flat monthly support fee to provide API access to documents in the InfoSend Print Image Archive. InfoSend will work with the designated third parties that a Client chooses, and provide support and open access to API calls on a monthly basis.
- **Final Doc Transfer FTP:** each completed InfoSend batch is indexed and transferred to you via FTP or SFTP to store on your own network. InfoSend's standard Batch File format is one PDF per batch with an XML companion file providing meta data and page numbers. If the client requires a custom scheme, including individual PDFs per each image in a batch, the Custom fee applies. Note: setup fees may also apply for some custom setups.
- **Professional Services Fee:** per hour and performed only upon request for customizations made to processing program or document format after go-live. Work is only started after receiving client approval of a formal quote.
- **Returned Mail Handling:** InfoSend will provide electronic reporting of mail that is returned by USPS, saving clients the hassle of receiving and opening returned mail to update records. All records which are not delivered will be securely destroyed and recycled after reporting.
- **Remit Tracking:** for clients utilizing the Print Image Archiving service, InfoSend can also track inbound mail from customers utilizing an included remittance stub in the outbound mail. With Remit Tracking clients will be able to see when a customer responded to the original mail piece, as well as get a daily report of inbound mail with an estimated value of payment remittances based on the outbound mail.
