September 30th 2021

RE: Potential Quail Creek Road Assessment Project

Petitions were mailed to property owners of record via certified mail on June 8th, 2021. The returned petitions were opened and tabulated on September 23rd, 2021 by the Clerk of Court Internal Audit Department.

Total Property Owners	48		
Total Owners Responding Timely	39		
Total Owners Responding In Favor	19	48.7%	(19/39)
Total Owners Responding Not In Favor	18	46.2%	(18/39)
Total Owners Responding with Invalid Response	2	5.1%	(2/39)

While these results indicate that **a majority** of the timely responding property owners voted in favor of the road improvements, one of the property owners with an invalid petition has since stated that their petition response intended to be Not In Favor.

The above petition results and update on one of the invalid petitions will be presented to the Board of County Commissioners (the Board) during the regular Board meeting on Tuesday, October 19th 2021 at 9:00 AM. The petition results and the Board's decision whether to move into the design phase of this potential project is not the determining factor or final approval of the project. The final approval or disapproval of the project would be determined by the Board at an advertised final public hearing which occurs after the design and bidding phases are complete and property owners are provided with an updated design and costs.

For additional information, please contact the MSTU Department (352) 438-2650.

Regards,

Alan Jones
MSTU/Assessment Director
