OCE Stormwater (Permits & Plans) (Office of the County Engineer) <i>Comments</i> Stormwater is not opposed to the special use permit. The applicant is requesting a SUP for the purpose of parking 5 semi-trucks on the property. Parcel # 45453-000-00 is 5 acres in size. There is a transitional County Flood Prone Area on this site. Per the MCPA, this site currently has 8,483 SF of impervious coverage. This site will be subject to a Major Site Plan or a stormwater compliance waiver when its existing and proposed impervious coverage exceeds 9,000 SF. Comments Recommend Denial - SE 135th Street and SE 80th Avenue are both Major Local roadways and are not designed to support routine heavy truck traffic from a trucking business. If the SUP is approved, it should be limited to one truck as is typically approved. Additionally, a condition should be provided to limit the driveway connections to SE 80th Avenue to one driveway including the existing paved driveway.

Utilities (Plans) Heather Proctor 03/17/2026 03/06/2026 Approved

(Utilities)
Comments Parcel 45453-000-00 is located within the Marion County Utilities service area but is currently outside of the required connection distance to public water and sewer. The proposed use, including the additional trucks being parked on the property, will not result in an increase in utility flows.

Marion County Utilities has no additional comments or concerns regarding this Special Use Permit.
