I. ITEM SUMMARY

Roger & Noelene Gantner, property owners, have filed a request for a variance from Land Development Code (LDC) Section 5.2.4.(A) ESOZ. Development Standards. The applicants are requesting a setback reduction from 75' to 27' on the westerly property boundary to allow a 4' addition to an existing deck and to also add a proposed porch cover over the same deck (Attachment A). The subject property is located within Unrecorded Lake Weir Landing Subdivision.

**FIGURE 1
GENERAL LOCATION MAP**

II. PUBLIC NOTICE

Notice of the public hearing was mailed to eight (8) property owners within 300 feet of the subject property on August 23rd, 2024. A public notice sign was posted on the subject property on August 22, 2024 (see Attachment B). Notice of the public hearing was published in the Star Banner on August 26th, 2024. Evidence of the public notice requirements is on file with the Growth Services Department and is incorporated herein by reference.

III. PROPERTY CHARACTERISTICS

The subject 3.13-acre property is located within the Rural Density (RL) Future Land Use Map Series (FLUMS) with Multiple-Family Dwelling (R-3) zoning and Single-Family Residential (R-1) zoning. The residence and deck are located within the R-3 portion of the property. The subject property consists of Lot 4 within the Lake Weir Landing UNR Subdivision. The aerial shows in Figure 1 that this rectangular-shaped property has 122' frontage along Lake Weir (Attachment C).

**FIGURE 2
SURVEY**

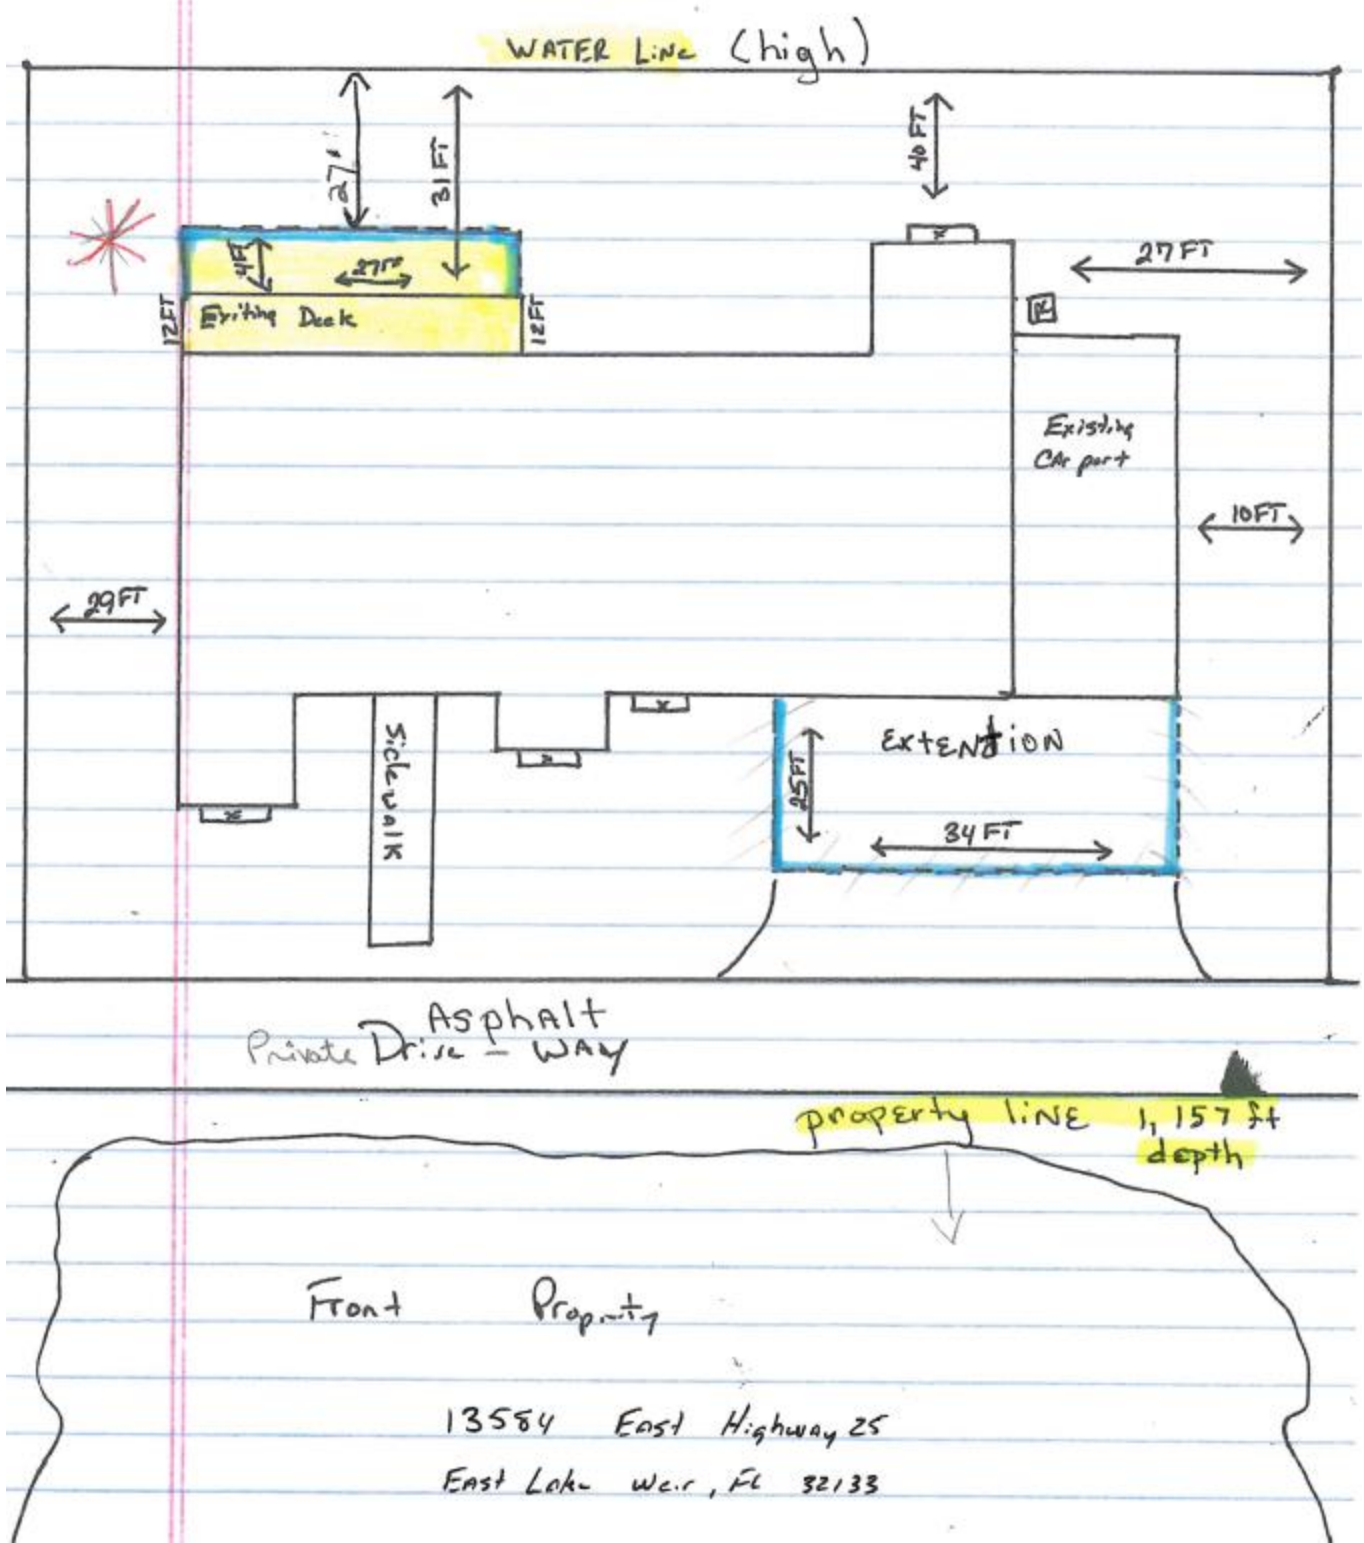

FIGURE 3
SITE PLAN

III. REQUEST STATEMENT

The applicant requests a variance from Land Development Code (LDC) Section 5.2.4.(A) ESOZ Design Standards. The applicants are requesting a setback reduction from 75' to 27' on the westerly property boundary to allow a 4' addition to an existing deck and also add a proposed porch cover over the same deck as shown in the site plan above in Figure 3 (Attachment D).

IV. ANALYSIS

LDC Section 2.9.2.E provides the Board of Adjustment shall not grant a variance unless the petition demonstrates compliance with six (6) criteria. Marion County Staff analysis of compliance with the six (6) criteria is provided below.

- 1. Special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other lands, structures or buildings with the same zoning classification and land use area.

Analysis: The applicants state they are requesting a setback reduction from 75' to 27' from the high water line mark on the westerly property boundary to allow a 4' addition to an existing deck and also add a proposed porch cover over the same deck for shade. The home was developed in it's current located to avoid a designated wetland area that encompasses the rest of the subject parcel to east. The development area for this subdivision is limited by ESOZ setbacks and this wetland area.

- 2. The special conditions and circumstances do not result from the actions of the applicant.

Analysis: The applicants state that the variance request will not move trees or land and is only adding on to existing deck and extending deck 4'. Staff finds the wetland area on-site would limit land capable of being developed to the current location.

- 3. Literal interpretation of the provisions of applicable regulations would deprive the applicant of rights commonly enjoyed by other properties with the same zoning classification and land use area under the terms of said regulations and would cause unnecessary and undue hardship on the applicant.

Analysis: Granting of this variance would not be irregular to the surrounding area. This would not adversely affect any property owners. As shown below several lots in this area have also received approved variances. The applicant states it would follow suit to the neighbor's additions that were granted.

- ❖ **060801V** ESOZ @ 58' for SFR addition – **approved**
- ❖ **070502V** ESOZ @ 60' for porch addition **approved;**
- ❖ **110602V** ESOZ @ 30' convert deck to room addition – **approved**
- ❖ **200701V** ESOZ @ 47' for mother-in-law suite & a pool **approved**

- 4. The variance, if granted, is the minimum variance that will allow the reasonable use of the land, building or structure.

Analysis: The applicants state that the request for the reduction in setbacks from 75' to 27' for the front (lakeside) to the high water line mark for a 4' addition to the existing deck and the proposed covered porch over the same deck is the minimum needed to develop at the desired location on an ESOZ body of water and provide ample coverage over the deck to allow for a proper amount of shade.

5. Granting the variance requested will not confer on the applicant any special privilege that is denied by these regulations to other lands, buildings or structures in the same zoning classification and land use area.

Analysis: Applicants state that the variance will not confer on the applicants any special privilege than other owners in the area since so many variances as shown above have been approved for similar requests.

6. The granting of the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Analysis: Applicants state this would not adversely affect any of the surrounding parcels since there are so many other parcels that were granted similar variances. Granting of this variance should not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Sec. 09-17-24
"Lake Weir Landing"

WRITTEN PETITION FOR VARIANCE

WRITE YOUR ANSWERS IN THE SPACE PROVIDED AFTER EACH STATEMENT. PLEASE COMPLETE ALL REPLIES USING A SENTENCE FORM. A VARIANCE FROM THE TERMS OF THESE REGULATIONS SHALL NOT BE GRANTED BY THE BOARD OF ADJUSTMENT UNLESS A WRITTEN PETITION FOR A VARIANCE IS SUBMITTED JUSTIFYING THE FOLLOWING:

A. Special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other lands, structures or buildings with the same zoning classification and land use area.

Applicant's justification:

1. We are asking for additional feet from our existing deck to add a covered porch for shade. Requesting a reduction from 75 feet to 27 feet to water line (high water line mark) ESOZ
2. Requesting to add Garage 25x34 to the back of the home. (roadside)
Property depth is 1,157'

B. The special conditions and circumstances do not result from the actions of the applicant.

Applicant's justification:

1. No trees or land moved. Only adding cover for shade onto deck + extend existing deck 4'
2. No trees removed or water run off to the lake. water will flow to the 3 acres opposite of Lake.

C. Literal interpretation of the provisions of applicable regulations would deprive the applicant of rights commonly enjoyed by other properties with the same zoning classification and land use are under the terms of said regulations and would work unnecessary and undue hardship on the applicant.

Applicant's justification:

Granting of this variance would not be irregular to the surrounding area. This would not adversely effect any property owners. It would follow suit to neighbors additions that were granted.

D. The Variance, if granted, is the minimum Variance that will allow the reasonable use of the land, building or structure.

Applicant's justification:

1. The reduction of 75 ft to 27 ft is the minimum needed to develop at desired location (ES02)

2. The 25x34 Garage is within our set backs & will not impact neighbors or water
 no variance needed or requested.

E. Granting the Variance requested will not confer on the applicant any special privilege that is denied by these regulations to other lands, buildings or structures in the same zoning classification and land use area.

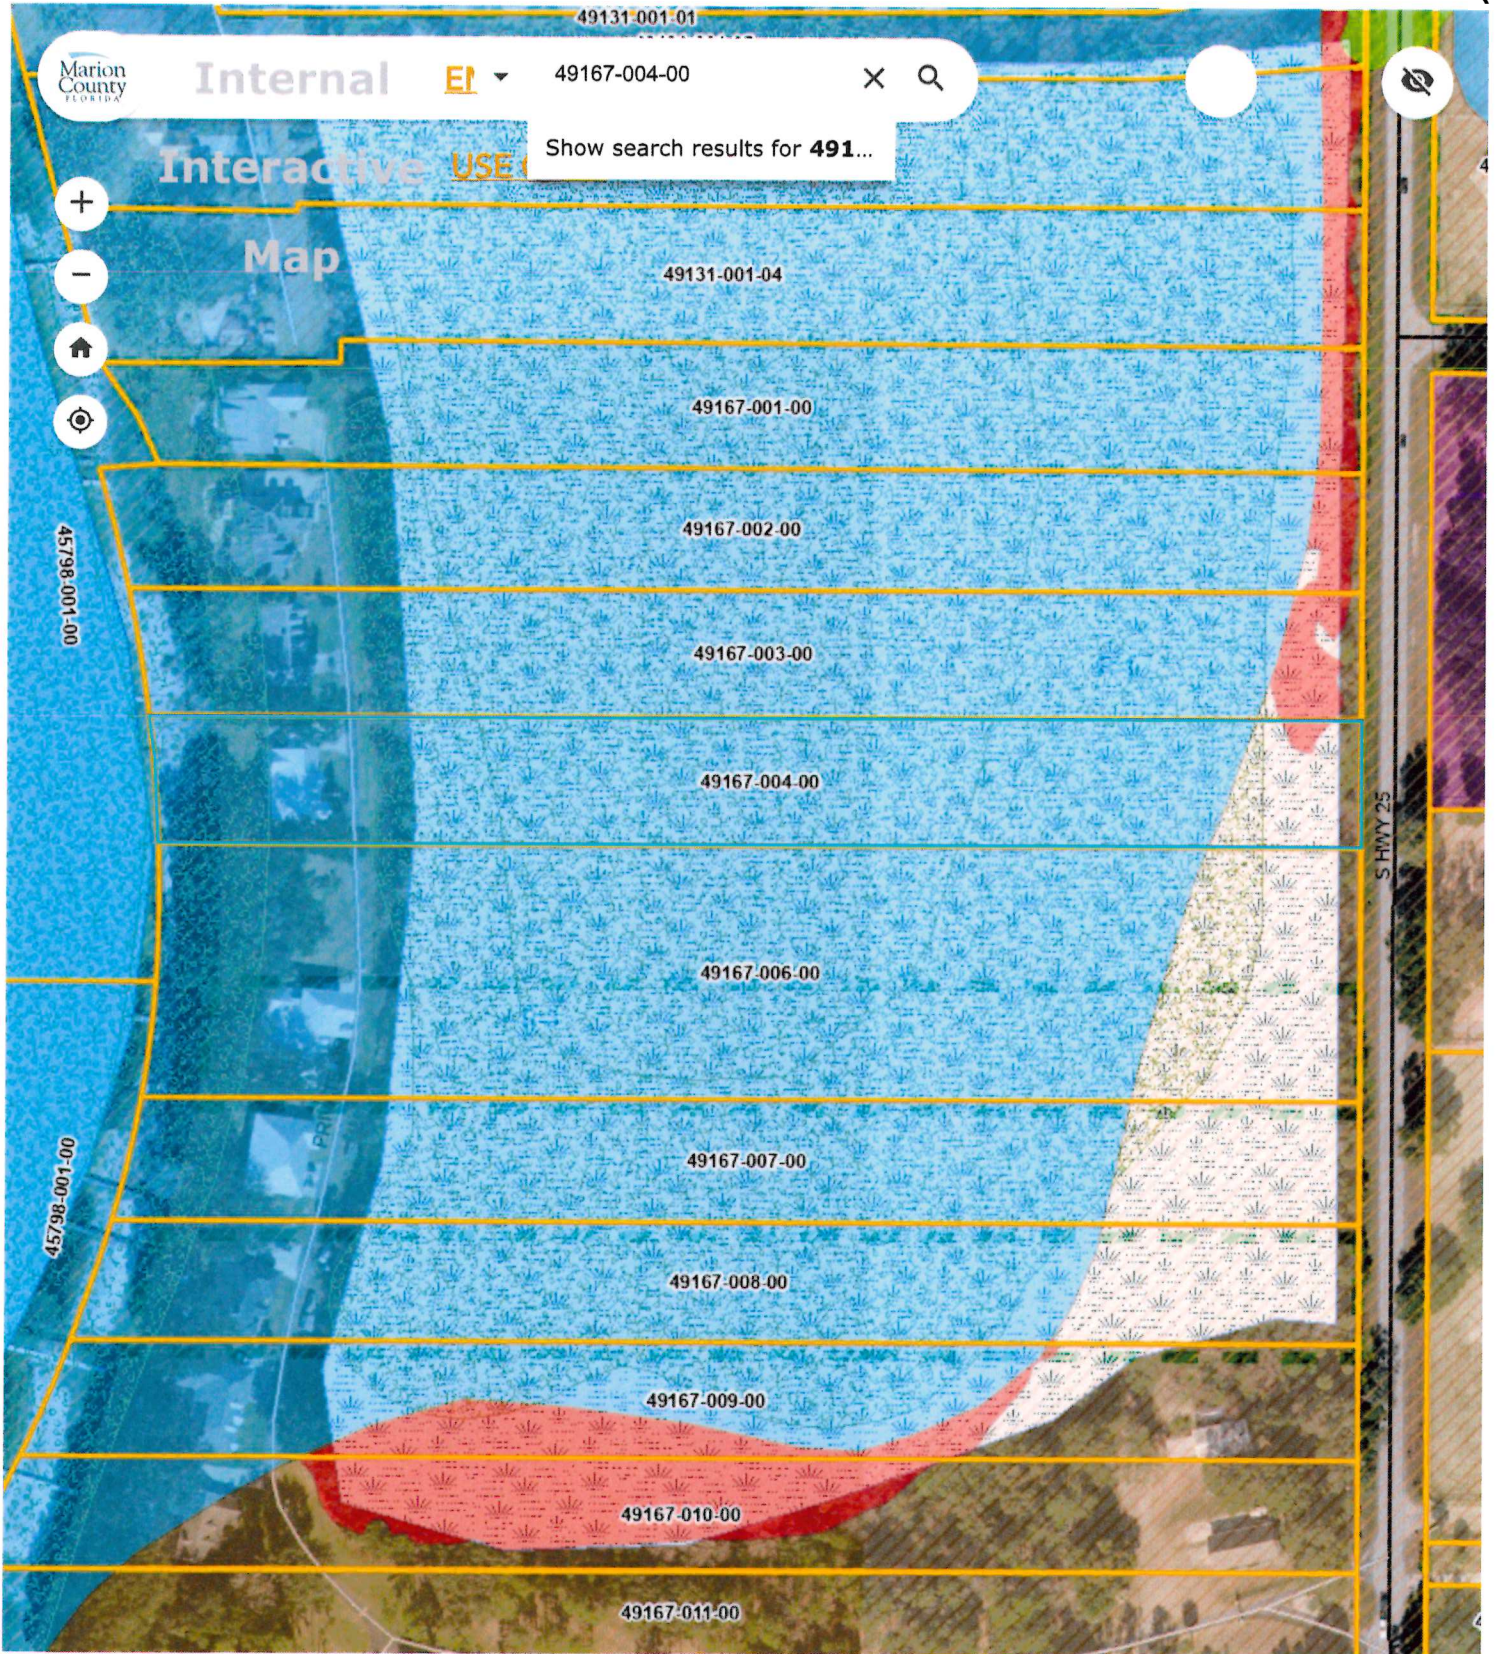

Applicant's justification:

True

F. The granting of the Variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Applicant's justification:

True

Agenda Item

File No.: 2024-16380

Agenda Date: 9/9/2024

Agenda No.: 2.2.

SUBJECT:

240805V - Brian and Tamra S. Ahl, Requests Variance, to Reduce the Front Setback from 25' to 19' for Proposed Additional Carport, in a One-and Two-Family Dwelling (R-2) zone, on Parcel Account Number 35322-004-04, Site Address 10030 SW 91st Terrace, Ocala, FL 34481

DESCRIPTION/BACKGROUND:

This is a variance request filed by owners Brian and Tamra Ahl, from the Land Development Code (LDC) Section 4.2.10 E. Structures attached to the home are required to meet the Single-Family Residential (SFR) setbacks and the Land Development Code states that in R-2 zoning, SFR setbacks are 25' from the front property line, 15' from rear property line, and 8' from both side property lines. The applicant is requesting to have a front setback reduction from the required 25' to 19'.

I. ITEM SUMMARY

This is a variance request filed by owners Brian and Tamra Alh, from the Land Development Code (LDC) Section 4.2.10 E. Structures attached to the home are required to meet the Single-Family Residential (SFR) setbacks and the Land Development Code states that in R-2 zoning, SFR setbacks are 25' from the front property line, 15' from rear property line, and 8' from both side property lines. The applicant is requesting to have a front setback reduction from the required 25' to 19'.

FIGURE 1
GENERAL LOCATION MAP

II. PUBLIC NOTICE

Notice of public hearing was mailed to (18) property owners within 300 feet of the subject property on August 23, 2024. A public notice sign was posted on the subject property on August 13, 2024 (Figure 2), and notice of the public hearing was published in the Star-Banner on August 26, 2024. Evidence of the public notice requirements is on file with the Department and is incorporated herein by reference.

III. PROPERTY CHARACTERISTICS

The subject .25-acre lot is located within the recorded subdivision, Pine Run Estates II. The property has a High Residential Future Land Use Map Series (FLUMS) designation with an R-2 Zoning Classification. LDC Section 4.2.10.E provides the determined setbacks to be a minimum 25' front setback, minimum 15' rear setback, and minimum 8' sides setback.

The .25-acre subject property is displayed as Lot 4, Block D, Plat Book V Page 045 in Pine Run Estates II. The property has 100' depth with 107' width. The platted right of way directly along the south side of Lot 4 is 30' wide, 10' of which is the paved road. This does not include a 10' easement along the front of the subject property.

Figure 2
Ahl Property

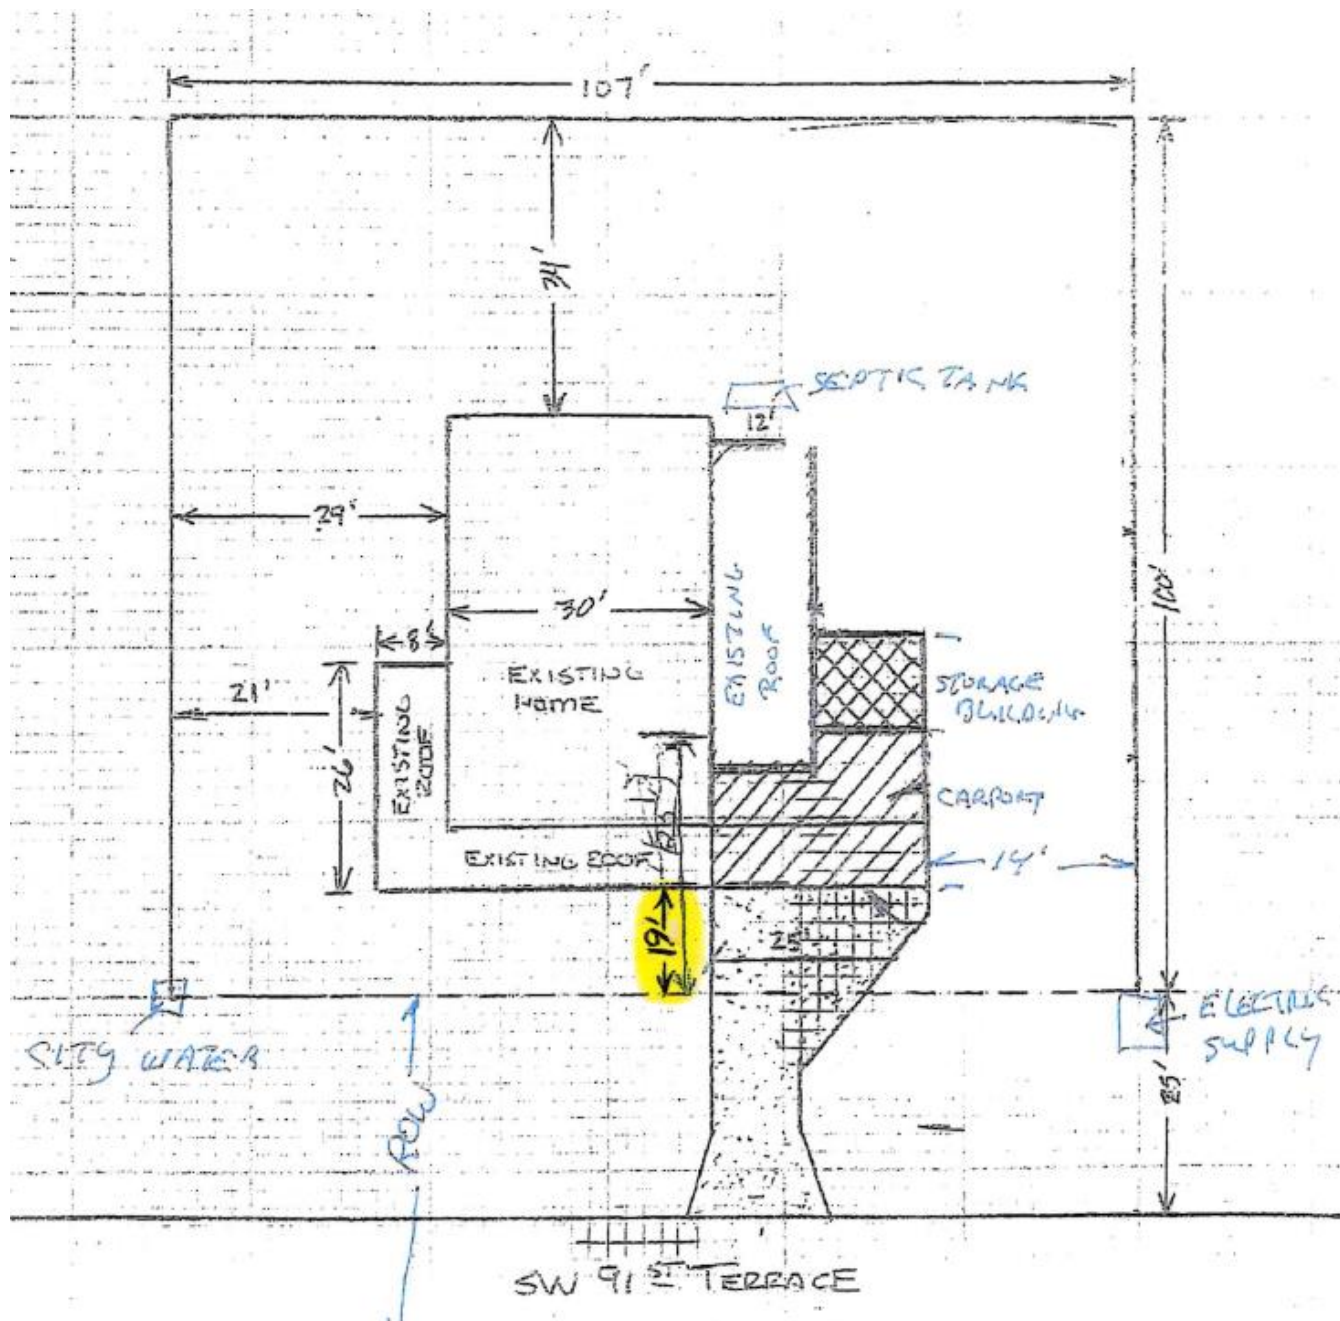

Figure 3
Right of Way

IV. REQUEST STATEMENT

This application requests a variance from LDC Section 4.2.10.E. for the front setback from the required 25' to 19' for an additional carport and new storage structure to be even with the existing carport. Consistent with LDC Section 2.9.3.B., on July 2, 2024, a site visit was conducted by Growth Services Department staff, and measurements and photographs were taken.

**Figure 4
Site Plan**

ANALYSIS

LDC Section 2.9.4.E provides the Board of Adjustment shall not grant a variance unless the petition demonstrates compliance with six (6) criteria. The six (6) criteria and the staff's analysis of compliance with those criteria are provided below.

1. Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which do not apply to other lands, structures, or buildings with the same zoning classification and land use area.

Analysis: Requesting a reduction of the 25' to 19' front setback in an R-2 residential zoning classification to add a second carport. The new structure will be 12' wide and 29' long which will include a storage building at the back of the carport. Adding a carport to the existing building is not possible, nor convenient in any other location.

Staff inspected the property to measure the front setback request and concurs with the above 19' setback request of the applicant, due to the aluminum patio cover extension over existing concrete permit that was approved in 2005.

2. The special conditions and circumstances do not result from the actions of the applicant.

Analysis: There was a previous permit granted and approved for the pouring of the concrete for the new carport. There is only one location to add a new carport. Please see figure 4 which shows the new angle driveway and the 12'x29' pad for a carport and storage building.

Staff finds that the patio cover was permitted in 2005 by different owners and no longer has an available site plan to see the setbacks of that structure. There is a permit that was done in 2023 by the current property owners for the concrete of the new structure. However, the submitted site plan for the concrete permit 2023090396 shows just the dimensions of the new pad and does not show where the proposed carport/storage structure were going on the pad.

3. Literal interpretation of the provisions of applicable regulations would deprive the applicant of rights commonly enjoyed by other properties with the same zoning classification and land use area under the terms of said regulations and would work unnecessary and undue hardship on the applicant.

Analysis: There are over 800 houses in Pine Run, over 80 houses have double carports. Some of the carports were added after the 25' setback was put into place. Granting this variance would fall in line with other granted requests and does not affect any of the neighboring properties.

Staff finds the 30' right of way (ROW) is actually 10' of roadway and the other 20' of ROW is included as part of their front yard like the other neighbors, not including the 10' easement along the front property line. Therefore, all other surrounding

properties in the area have the same conditions and have applied for previous variances, since most of the houses were put in during the 80s’.

4. The variance, if granted, is the minimum variance that will allow the reasonable use of the land, building, or structure.

Analysis: A reduction from the 25’ to 19’ will allow the construction to line up exactly with the current front line of the roof edge. The size of the new structure is the minimum to park a vehicle and have a storage building that will house yard equipment and general household storage.

Staff finds that the 12’ x 29’ carport and storage structure can meet the 25’ setback since the structure is an addition that has not yet been built.

5. Granting the variance requested will not confer on the applicant any special privilege that is denied by these regulations to other lands, buildings, or structures in the same zoning classification and land use area.

Analysis: Granting of this variance will allow the improvements to the property that other property owners in Pine Run have been able to enjoy. The precedent was set back when the setback of 25’ was established after the houses of Pine Run were originally built in 1980’s.

Staff finds granting any variance is a privilege, however, with Pine Run Estates II having the same extended front yard due to the right of way added to everyone’s front yard and the 10’ easement, the variance wouldn’t negatively impact the neighborhood.

6. The granting of the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Analysis: This does not create any type of safety issue for the neighborhood. It does create a safer structure for the owner’s personal property.

Staff confirms the neighborhood has the same extended right of way merged into their front yards and the variance will not be detrimental to the public welfare.

PLEASE NOTE THAT A WRITTEN PETITION (REFER TO PAGE 2 & 3) MUST BE PROVIDED WITH THIS APPLICATION, ALONG WITH A SITE PLAN IN ORDER TO BE CONSIDERED COMPLETE. FOR FURTHER INFORMATION CONTACT THE MARION COUNTY GROWTH SERVICES.

"Meeting Needs by Exceeding Expectations"

WRITTEN PETITION FOR VARIANCE

WRITE YOUR ANSWERS IN THE SPACE PROVIDED AFTER EACH STATEMENT. PLEASE COMPLETE ALL REPLIES USING A SENTENCE FORM. A VARIANCE FROM THE TERMS OF THESE REGULATIONS SHALL NOT BE GRANTED BY THE BOARD OF ADJUSTMENT UNLESS A WRITTEN PETITION FOR A VARIANCE IS SUBMITTED JUSTIFYING THE FOLLOWING:

A. Special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other lands, structures or buildings with the same zoning classification and land use area.

Applicant's justification:

Requesting a reduction of the 25 foot to 19 foot for a front set back in a R-2 Residential zoning classification to add a second carport to the existing carport. The new structure will be 12 feet wide and 29 feet long which will include a storage building at the back of the carport. Adding a carport to the existing building is not possible, nor convenient in any other location.

B. The special conditions and circumstances do not result from the actions of the applicant.

Applicant's justification:

There was a previous permit granted and approved for the pouring of concrete for the new carport. This is the only location to add a new carport. See attached site plan, shows the new angle driveway and the 12 foot by 29 foot pad for carport and storage building.

C. Literal interpretation of the provisions of applicable regulations would deprive the applicant of rights commonly enjoyed by other properties with the same zoning classification and land use are under the terms of said regulations and would work unnecessary and undue hardship on the applicant.

Applicant's justification:

There are over 800 houses in Pine Run. Over 80 houses have double carports. Some of the carports were added after the 25 foot set back was put into place. Granting of this variance would fall in line with other granted requests, and does not affect any of the neighboring properties.

D. The Variance, if granted, is the minimum Variance that will allow the reasonable use of the land, building or structure.

Applicant's justification:

A reduction from 25 feet to 19 feet will allow the construction to line up exactly with the current front line of the roof edge. The size of the new structure is the minimum to park a vehicle and have a storage building that will house yard equipment and general household storage.

E. Granting the Variance requested will not confer on the applicant any special privilege that is denied by these regulations to other lands, buildings or structures in the same zoning classification and land use area.

Applicant's justification:

Granting of this variance will allow the improvements to the property that other property owners in Pine Run and been able to enjoy. The precedent was set back when the set back of 25 feet was established after the houses of Pine Run were originally built in the 1980's.

F. The granting of the Variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

Applicant's justification:

This does not create any type of safety issue for the neighborhood. Does create a safer structure for owner's personal property.

MARION COUNTY BOARD OF ADJUSTMENT

July 1, 2024

A public hearing of the Marion County Board of Adjustment was held on July 1, 2024 at 2:00 pm in the Marion County Growth Services Training Room, 2710 E. Silver Springs Boulevard, Ocala, Florida.

The meeting was called to order at 2:05 pm (due to technical difficulties). Members present creating a quorum were: Members C. Cadell Hager, Ernest Hemschot, Thomas Phillips, Nathanael Ramos, Douglas Sherwood; and Alternate Jackie Alsobrook and Samuel Hunt. Staff members present were: County Attorney Dana Olesky, Growth Services Director Chuck Varadin, Deputy Director Kenneth Weyrauch, Staff Assistants IV Darlene A. Pocock and Autumn Williams, along with Zoning Technicians Jeremy Craig, Christina Franco, Rachel Kruger, Lynda Smith and Elizabeth Madeloni.

Thomas Phillips gave the Invocation, followed by Cadell Hager leading the Pledge of Allegiance.

Attorney Dana Olesky explained the procedures for hearing variance requests and Atty. Olesky administered the Oath en masse.

Ken Weyrauch proceeded by reading the provided Affidavit of Publication and the Proof of Required Mailing and Posting of Notice, and advised that the meeting was properly noticed.

- 2.1 **240701V** – James E. and Amanda W. Perry, request a Variance in accordance to Section 2.9 of the Marion County Land Development Code, to reduce the ESOZ front(canal) setback from 75' to 35' for a proposed SFR, in a Single-Family Dwelling (R-1) zone on Parcel Account Number 45824-000-00 addressed as 10843 SE 144th Place, Summerfield, FL 34491.

Rachel Kruger presented the case and read the report into the record and noted the original application was withdrawn and a new application was sent in along with a letter from DEP. Liz Madeloni assisted with the presentation.

There were 11 homeowners notified within 300' of the parcel, with and no letters of opposition nor support received.

Rodney Rogers, 1105 SE 3rd Avenue, Ocala, FL 34471, Engineer doing the ESOZ plan and agent for the owner, stated that looking at the survey the Ordinary High-Water Line is now in the water vs when the land was originally platted in the 1970's. The canal is now further away and wider which will stabilize and slow/stop the erosion. Mr. Rogers noted a biologist went out to the site and mentioned adding a seawall in the future to help prevent any further erosion. Mr. Rogers reiterated the location of the house to the canal was in relation to all the surrounding homes in

the area and that the house size and location meet zoning requirements. He explained the owner did their due diligence by going to DEP and that the only issue is ESOZ.

PUBLIC COMMENT:

There was no one in the audience to speak for, or against, the request and the chair closed the public portion of the hearing.

Ernest Hemschot made a motion to **approve** the variance as requested and moved that, having heard competent substantial evidence, the Board finds that: 1. A special condition or circumstance exists on the property that does not exist on other properties within the same zoning and land use area; 2. The applicant did not cause the special condition or circumstance; 3. Literal enforcement of the regulations would create unnecessary and undue hardship and deprive the applicant of rights commonly enjoyed by other properties within the same zoning and land use area; 4. The variance is the minimal variance that will allow reasonable use of the property; 5. The variance will not confer any special privilege on the applicant that is denied to other properties within the same zoning and land use area; and 6. The granting of the variance will not be injurious to the neighborhood or detrimental to the public welfare; And that the Board grant the variance.

Cadell Hagar made a motion to second.

Motion to Approve - Passed 6 to 1 with Thomas Phillips dissenting.

- 2.2 **240703V** – Robert P. Howes, request a Variance in accordance to Section 2.9 of the Marion County Land Development Code, to reduce the N. side setback from 25’ to 13’ for an existing pergola (trellis type shade structure), in a Light Industrial (M-1) zone on Parcel Account Number 36967-002-00 addressed as 9672 SE 58th Avenue, Belleview, FL 34420.

Lynda Smith presented the case and read the report into the record stating that this request is for the existing unpermitted covered pergola.

There were 7 homeowners notified within 300’ of the parcel, with and no letters of opposition nor support received.

Tim Kirby, 9672 SE 58th Avenue, Ocala, FL 34480, Owner of Flying Boat Tap Room stated this structure started off being used as temporary covered area for customers while waiting on restaurant seating. The idea then grew into this being an outside seating area for customers, which is why the roof was upgraded from the existing tarp like material. Mr. Kirby reiterated that they viewed this as a temporary hurricane proof engineered structure which is why permits weren’t pulled.

PUBLIC COMMENT:

There was no one in the audience to speak for, or against, the request and the chair closed the public portion of the hearing.

Jackie Alsobrook made a motion to **approve** the variance as requested and moved that, having heard competent substantial evidence, the Board finds that: 1. A special condition or circumstance

exists on the property that does not exist on other properties within the same zoning and land use area; 2. The applicant did not cause the special condition or circumstance; 3. Literal enforcement of the regulations would create unnecessary and undue hardship and deprive the applicant of rights commonly enjoyed by other properties within the same zoning and land use area; 4. The variance is the minimal variance that will allow reasonable use of the property; 5. The variance will not confer any special privilege on the applicant that is denied to other properties within the same zoning and land use area; and 6. The granting of the variance will not be injurious to the neighborhood or detrimental to the public welfare; And that the Board grant the variance.

Ernest Hemschot made a motion to second.

Motion to Approve - Passed 7 to 0.

- 2.3 **240704V** – Bradley A. Christopher, request a Variance in accordance to Section 2.9 of the Marion County Land Development Code, to reduce the ESOZ front (canal) setback from 75’ to 45’ for a proposed SFR and from 75’ to 25’ for a proposed pool and patio in a Single-Family Dwelling (R-1) zone on Parcel Account Number 16653-008-08 (un)addressed as 00 NE 303rd Court Road, Salt Springs, FL 32134.

Christina Franco presented the case and read the report into the record and noted the original ESOZ front setback request from 75’ to 42’ for proposed SFR has been updated to reflect a new minimum request from 75’ to 45’. Jeremy Craig assisted with the presentation.

There were 14 homeowners notified within 300’ of the parcel, with and no letters of opposition nor support received.

Applicant not present.

PUBLIC COMMENT:

Sherry Miller, 9800 NE 302 Terrace, Salt Springs, FL 32134, she is not in opposition of applicant request being approved but wanted to comment that she is concerned about the non-paved roads in the area.

The chair closed the public portion of the hearing.

Douglas Sherwood made a motion to **approve** the variance as to ESOZ front (canal) setback from 75’ to 45’ for a proposed SFR only and deny the request for proposed pool and patio setbacks from 75’ to 25’ and moved that, having heard competent substantial evidence, the Board finds that: 1. A special condition or circumstance exists on the property that does not exist on other properties within the same zoning and land use area; 2. The applicant did not cause the special condition or circumstance; 3. Literal enforcement of the regulations would create unnecessary and undue hardship and deprive the applicant of rights commonly enjoyed by other properties within the same zoning and land use area; 4. The variance is the minimal variance that will allow reasonable use of the property; 5. The variance will not confer any special privilege on the applicant that is denied to other properties within the same zoning and land use area; and 6. The granting of the variance will not be injurious to the neighborhood or detrimental to the public welfare; And that the Board grant the variance.

Nathanael Ramos made a motion to second.

Motion to Approve the ESOZ front (canal) setback from 75' to 45' (applicant updated request to the lesser setback) for a proposed SFR ONLY - Passed 6 to 1 with Thomas Phillips dissenting.

Denied request for proposed pool & patio from 75' to 25'.

OTHER BUSINESS:

3.1 Nominations for Vice Chairman

C. Cadell Hagar

APPROVED: 7 to 0
