Sec. 5-71. Noise Control and Enforcement.

- (a) *Definition.* The following words, terms and phrases, when used in this article, shall have the meaning ascribed to them in this section, except where the context clearly indicates a different meaning:
 - (1) *Amplified sound.* As used in this section, "amplified sound" shall mean sound and sound volume that is increased by any electric, electronic, mechanical, or motor-powered means.

- (2) Noise Sensitive Zone. As used in this section, “Noise Sensitive Zone” shall mean a quiet zone where serenity and quiet are of extraordinary significance and which is demarcated by conspicuous signage identifying it as a noise-sensitive or quiet zone.

 - (2) The sounding of any horn or signaling device for any unnecessary or unreasonable period, and the unreasonable use of any horn or signaling device; provided, however,

 - a. For the first violation, by a warning requiring immediate elimination or abatement of the violation. The warning shall advise the operator or violator of the violation of this section and of the possible criminal penalty if such violation is not terminated or is repeated.
 - b. If the violation is not terminated after warning or for any subsequent violation of this ordinance, the operator or violator may be charged with a violation of this section as provided in Section 1-9, Marion County Code, Section 125.69, Florida Statutes, or Section 877.03, Florida Statutes, a misdemeanor of the second degree.
- (2) A violation occurs within the presence of a law enforcement officer when amplified sound is plainly audible to the law enforcement officer at a distance of twenty-five (25) feet or more from the vessel or the source of the amplified sound. Sufficient information for a law enforcement officer to form a belief includes the circumstances and facts surrounding the alleged violation, including, but not limited to, the time of day when the alleged violation occurs, the number of complaints received about the alleged violation, whether the person responsible for the alleged violation has previously been in violation of this section, and the degree of disturbance resulting from the violation.
