

Sec. 4.2.15 Requirements for all commercial and industrial zoning districts.

- A. Within commercially zoned districts, unless otherwise noted the listed uses shall mean the sale of finished products or units.
- B. No structure may be erected, placed upon or extend over any easement unless approved in writing by the person or entity holding said easement.
- C. All security residences or residential units must be of similar construction and architectural style as the primary structure.
- D. All security or residential units must be to the side or rear of the primary structure and location shall be approved administratively.
- E. Ground and building lights shall be confined to the property and shall not cast direct light on adjacent properties. The maximum height of a light pole shall be 35 feet in all commercial zoning classifications except B-1 and RAC where the maximum height is 25 feet.
- F. For all other outdoor lighting requirements, refer to [Sec. 6.19.6](#).
- G. Trash containers shall be screened from public view, using opaque materials.
- H. All setbacks shall be measured from the outside wall of buildings or structures and from the concrete curb surrounding gas pumps; however, eaves, roof overhangs or pilasters may protrude two feet into a required setback. Gas pump island canopies may protrude ten feet into a required setback.
- I. Screening of Activities. Areas used for parking of commercial vehicles, or storage of vehicles, or outdoor storage or uses shall be screened, buffered or fenced in such a manner as to screen said areas from view from access streets, freeways and incompatible adjacent properties. Such screening shall form a complete opaque screen up to a point eight feet in vertical height.

Sec. 4.2.16 Residential Office (R-O) zoning classification.

- A. Intent of Classification. The Residential Office Zoning classification is intended to provide areas where residential uses and certain office uses which are compatible with residential development may be allowed to coexist. This normally occurs through the conversion of single-family dwellings to specific office uses. This zoning district is to be considered a restricted commercial zoning classification.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.
- C. Development Standards. See table 2.4-6 below.
- D. Special Requirements
 - (1) Existing residential uses will be allowed to continue as a permitted use of an existing residential structure until such time as the dwelling unit is converted through change of occupancy, sale, or lease for office or other permitted uses.

(P) = Permitted (S) = Special Use Permit

(2) The front setback area shall not be utilized for the display, or storage of goods, commodities or merchandise offered for sale or rent whether on a temporary or permanent basis, unless permitted through the Temporary or Special Event Permitting Process. Refer to Sec. 4.3.16 for procedures to obtain either a Temporary Use Permit or a Special Event Permit.

(3) Uses allowed in this zoning district shall be located within an enclosed structure.

E. See Environmentally Sensitive Overlay Zone (ESOZ) in Article 5 for alternative lot and building standards for properties within that zone.

Sec. 4.2.17 Neighborhood Business (B-1) zoning classification.

A. Intent of Classification. The Neighborhood Business Classification is intended to provide for neighborhood retail and shopping facilities that would be appropriate with surround residential areas. All commercial activity involving retail sales or rentals shall take place in a completely enclosed building.

B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.

C. Development Standards. See table 2.4-6 below.

D. Special Requirements

(1) The front setback area shall not be utilized for the display, or storage of goods, commodities or merchandise offered for sale or rent whether on a temporary or permanent basis, unless permitted through the Temporary or Special Event Permitting Process. Refer to Sec. 4.3.16 for procedures to obtain either a Temporary Use Permit or a Special Event Permit.

(2) All setbacks shall be measured from the outside wall of buildings or structures and from the concrete curb surrounding gas pumps; however, eaves, roof overhangs, or pilasters may protrude two feet into a required setback.

E. Buffering Requirements. Buffers shall be provided consistent with the provisions of Section 6.8.6; however, for a proposed Industrial use adjoining a Right-of-Way wherein any form of Residential use is adjacent to that right-of-way across from the Industrial use, that buffer shall be upgraded to a D-Type Buffer in lieu of a C-Type Buffer.

Sec. 4.2.18 Community Business (B-2) zoning classification.

A. Intent of Classification. The Community Business classification provides for the shopping and limited service needs of several neighborhoods, a community, or a substantial land area. Retail stores are intended to include general merchandise, fashion, durable goods, and personal services. All commercial activity involving retail sales or rentals shall take place in a completely enclosed building.

B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.

C. Development Standards. See table 2.4-6 below.

D. Special Requirements

- (1) All commercial activities involving retail sales or rentals shall take place in a completely enclosed building. Restaurant, garden center, plant nursery, boat, golf cart, LSV, bicycle and lawnmower sales, rentals, and displays may take place outside, if any lawnmowers, golf carts, LSVs and bicycles being displayed outside are stored inside the sales building after business hours.
- (2) Screening of Activities. Areas used for parking of commercial vehicles, or storage of vehicles, or outdoor storage or uses shall be screened, buffered or fences in such a manner as to screen said areas from view from access streets, freeways and incompatible adjacent properties. Such screening shall form a complete opaque screen up to a point eight feet in vertical height. Items for outside storage that are not for display for retail or rental purposes shall be located in the side or rear yard area and shall be subject to the buffering requirements below, and the additional requirements of Section 6.8.6.
- (3) Within commercially zoned classifications, unless otherwise noted the listed uses shall mean the sale of finished products or units.

E. Buffering Requirements. Buffers shall be provided consistent with the provisions of Section 6.8.6; however, for a proposed Industrial use adjoining a Right-of-Way wherein any form of Residential use is adjacent to that right-of-way across from the Industrial use, that buffer shall be upgraded to a D-Type Buffer in lieu of a C-Type Buffer.

Sec. 4.2.19 Specialty Business (B-3) zoning classification.

- A. Intent of Classification. The Specialty Business classification is intended to provide areas for the development of special commercial facilities requiring large parcels of land, which require access, by motor vehicles of all types including tractor- trailer units.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.
- C. Development Standards. See table 2.4-6 below.
- D. Special Requirements.
 - (1) All setbacks shall be measured from the outside wall of buildings or structures and from the concrete curb surrounding gas pumps; however, eaves, roof overhangs, or pilasters may protrude two feet into a required setback.
 - (2) The display of motor vehicles, recreational vehicles and trailers, farm tractors and equipment, and heavy construction equipment, which are for sale or lease, may be exhibited in the front setback; however, the front setback shall be increased to a minimum of 85 feet.
 - (3) All uses allowed in this zoning classification shall be located within an enclosed structure with the following exceptions:
 - (a) All outdoor activities and outdoor storage of materials, components, and finished goods shall be located in side or rear yard areas and shall be fenced and buffered from view from surrounding properties
 - (b) Temporary storage or parking of motor vehicles, recreational vehicles, trailers, farm tractors and equipment, which are for, inventory or in for repair shall be located in side or rear yard areas where they are buffered from view from adjacent properties.

- (c) The temporary parking of commercial vehicles in truck stop facilities or public parking lots or facilities
- (4) Within commercially zoned districts, unless otherwise noted the listed uses shall mean the sale of finished products or units.
- E. Buffering Requirements. Buffers shall be provided consistent with the provisions of Section 6.8.6; however, for a proposed Industrial use adjoining a Right-of-Way wherein any form of Residential use is adjacent to that right-of-way across from the Industrial use, that buffer shall be upgraded to a D-Type Buffer in lieu of a C-Type Buffer.

Sec. 4.2.20 Regional Business (B-4) zoning classification.

- A. Intent of Classification. The Regional Business classification is intended to create a zoning district to provide for the development of regional shopping centers; to establish and maintain intensive commercial activities and specialized service establishments that require centralized locations within a large service area; to provide a full range of merchandise and services usually obtainable in major department stores and their complimentary specialty shops; and to permit the development of major financial and administrative complexes that may serve a region and require a conspicuous and accessible location convenient for motorists.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.
- C. Development Standards. See table 2.4-6 below.
- D. Special Requirements.
 - (1) All uses allowed in this zoning classification shall be located within an enclosed structure with the following exceptions:
 - (a) All outdoor activities and outdoor storage of materials, components, and finished goods shall be located in side or rear yard areas and shall be fenced and buffered from view from surrounding properties.
 - (b) Temporary storage or parking of motor vehicles, recreational vehicles, trailers, farm tractors and equipment, which are for, inventory or in for repair shall be located in side or rear yard areas where they are buffered from view from adjacent properties.
 - (c) The temporary parking of commercial vehicles in truck stop facilities or public parking lots or facilities.
 - (d) Within commercially zoned districts, unless otherwise noted the listed uses shall mean the sale of finished products or units.
- F. Buffering Requirements. Buffers shall be provided consistent with the provisions of Section 6.8.6; however, for a proposed Industrial use adjoining a Right-of-Way wherein any form of Residential use is adjacent to that right-of-way across from the Industrial use, that buffer shall be upgraded to a D-Type Buffer in lieu of a C-Type Buffer.

Sec. 4.2.21 Heavy Business (B-5) zoning classification.

- A. Intent of Classification. The Heavy Business classification is intended to provide for those uses such as retail or wholesale, repair and service, which may require larger parcels for the outside storage of materials or equipment in inventory or waiting repair. Businesses are intended to serve clients and customers from a regional area providing access for large delivery trucks.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.

C. Development Standards. See table 2.4-6 below.

D. Special Requirements.

- (1) All setbacks will be measured from the outside wall of buildings or structures and from the concrete curb surrounding gas pumps; however, eaves, roof overhangs, or pilasters may protrude two feet into a required setback.
- (2) The display of items allowed within this zoning classification that are for sale or lease, may be displayed within the front setback. The front setback will be increased to a minimum of 85 feet for structures or buildings.
 - (a) Sales, rentals and display of motor vehicles, farm equipment, manufactured homes, motorcycles, landscape contractor's yard supplies, farm tractors, trailers, utility/storage sheds, restaurant service, garden center items, lawn mowers, bicycles, boats, golf carts, and plant nursery are permitted outside in this classification. All outdoor activities and outdoor storage of materials, components, and finished goods shall be located in side or rear yard areas and shall be fenced and buffered from view from surrounding properties.
 - (b) Temporary storage or parking of motor vehicles, recreational vehicles, trailers, farm tractors and equipment, which are for, inventory or in for repair shall be located in side or rear yard areas where they are buffered from view from adjacent properties.
 - (c) The temporary parking of commercial vehicles in truck stop facilities or public parking lots or facilities.

E. Buffering Requirements. Buffers shall be provided consistent with the provisions of Section 6.8.6; however, for a proposed Industrial use adjoining a Right-of-Way wherein any form of Residential use is adjacent to that right-of-way across from the Industrial use, that buffer shall be upgraded to a D-Type Buffer in lieu of a C-Type Buffer.

Sec. 4.2.22 ~~Rural~~ Recreational Resort (RR) zoning classification.

A. Intent of Classification. The Recreational Resort District is intended to provide for commercial and institutional recreational development in rural or urban areas adjacent to or within the Ocala National Forest or other natural recreation areas including but not limited to the Silver River State Park, the Florida Greenway, and Rainbow River Park or on lands fronting on lakes or rivers. The uses allowed in this district are water-related, water-dependent, or natural resource dependent and are necessary for the support of the guests and the immediate population.

B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.

C. Development Standards

- (1) Minimum Lot Area
 - (a) 1,500 square feet for Park model or travel trailer, without additions
 - (b) 2,400 square feet for Park model trailer, with additions
 - (c) 4,000 square feet for Manufactured homes
 - (d) 20,000 square feet for Group Campsite
- (2) Minimum Lot Width:

- (e) 30 feet for Park model or travel trailer, without additions
- (f) 35 feet for Park model trailer, with additions
- (g) 40 feet for Manufactured homes
- (3) Maximum Building Height: 40 feet
- (4) Maximum Impervious Area: 40% of gross parcel area
- (5) Minimum Land Area for Recreation Facility: 8 acres

D. Setbacks:

- (1) Minimum Front Setback
 - (a) 20 feet for Manufactured home and Park model sites (8 feet for RV Parks designed and constructed prior to June 11, 1992)
 - (b) If parking is provided elsewhere, this setback may be reduced to 8 feet
- (2) Minimum Side Setback
 - (a) 15 feet Separation between units
 - (b) (8 feet for RV Parks designed and constructed prior to June 11, 1992)
- (3) Minimum Rear Setback
 - (a) 10 feet for Manufactured home or Park model sites. (8 feet for RV Parks designed and constructed prior to June 11, 1992)

E. Accessory Structures/Uses:

- (1) Additions (where noted) include screen room, awning, carport, utility room and storage shed.
- (2) Accessory uses (where permitted) require a 10' separation between additions, and must be located in a side or rear yard only.
- (3) Setbacks for accessory uses in Recreational Vehicle Parks designed and constructed prior to June 11, 1992 shall be separated by a minimum of 10 feet on the side and rear.

F. Special Requirements:

- (1) The proposed development or existing development shall have a total land area sufficient to meet all site design standards in this Code including, but not limited to: land required providing setbacks from abutting rights-of-way, water bodies, buffers, stormwater management, off-street parking and circulation, protection of wetlands or other provisions that may require land area to be set aside.
- (2) Temporary occupancy living accommodations for recreation or travel use which may include but are not limited to the following: fifth wheel travel trailer, travel trailers, camping trailer, truck camper, motor home, van conversion, tent vehicles and tents, cabins or bunk house sleeping quarters.
- (3) Park model trailers or manufactured homes may also be used as temporary occupancy living quarters, when owned by the property owner.
- (4) Developments proposed for private lands within one mile of or within the proclamation boundary of the Ocala National

Forest shall be reviewed by the USDA Forest Service. Comments shall be considered by the county in granting approval for the proposed development.

- (5) Lake and riverine wetlands and grass beds shall be protected in accordance with Article 5 and Florida Department of Environmental Protection. Any environmental disruptions will be mitigated. All proposed projects located within the Environmentally Sensitive Overlay Zone shall comply with the requirements of Article 5 of this Code.
- (6) Proof of permits or exemptions by other regulatory agencies shall be provided to the Director prior to obtaining a building permit.

G. Access and Parking Requirements:

- (1) Access to the recreational resort shall be from a federal, state, or county maintained roadway.
- (2) Internal streets shall provide safe and convenient access to spaces and appropriate resort facilities. Alignment and gradient shall be properly adapted to topography. Construction and maintenance shall provide a well-drained, paved surface. Such surfaced roadways shall be of adequate width to accommodate anticipated traffic, and in all cases shall meet the minimum width of 12 feet per lane.
- (3) Streets serving less than 50 spaces may be used as part of a pedestrian circulation system. If the relation of individual space locations to facilities within the resort calls for establishment of pedestrian ways, they shall be provided, preferably as part of a common open space system away from streets, but otherwise as sidewalks. No common access to such pedestrian ways or to facilities within the resort shall be through an individual space.
- (4) Temporary living accommodation spaces or permanent dwelling units shall be located with access to internal streets as to provide for convenient vehicular ingress and egress, and shall not have direct access to adjoining public rights-of-way.
- (5) Temporary living accommodation spaces shall be located in relation to pedestrian ways and principal destinations within the resort as to provide for safe and convenient pedestrian access to such destinations.
- (6) All parking and non-water dependent facilities must be built on upland areas.
- (7) Only boat docks, boat launching ramps and fueling facilities may be located within the one percent (100-year) flood plain. Fuel storage tanks shall be located on the upland area outside of the one percent (100-year) flood plain, and shall be designed to contain spills.
- (8) Boat launching/docking/marine facilities must provide vehicular-trailer parking at the rate of one space per boat if public launching is allowed.

H. Building and Construction Standards:

- (1) All facilities within the resort shall be served by a central water and sewage system. Fire flow and pressure shall be provided by the constructed water supply system. Refer to Article 6.
- (2) Service buildings equipped with toilets, lavatories, showers, and laundry facilities shall be provided in accordance with Department of Health requirements.
- (3) All temporary living accommodation units owned by the property owner shall be permanently anchored in accordance with

- the manufacturer's instructions or ANSI A225.1, latest edition.
- (4) All temporary living accommodations, manufactured homes or park model trailers, owned and rented by the property owner shall be under skirted using stucco with a simulated block, brick or stone finish.
 - (5) All side setbacks shall be measured from wall to wall of adjacent living units. The front setback shall be measured from the edge of paving.
 - (6) Accessory uses and structures shall be substantially related to and in the context of the character of the development and shall be located in the rear or side yard, provided the required setbacks are observed.
 - (7) Storage sheds or facilities, provided by the property owner, shall be permitted provided they do not exceed 100 square feet in floor area per storage shed and the shed will fit within the required setbacks below.
 - (8) Porches, either screened or unscreened, may be erected on the site provided setbacks can be met. They shall be so designed as to be self-supporting and capable of being removed from the dwelling unit.
 - (9) Where fireplaces, cooking shelters or similar facilities for open fires or outdoor cooking are provided within spaces or elsewhere, they shall be so located, constructed, maintained and used so as to minimize fire hazards and smoke nuisance within the resort and in adjoining areas.
 - (10) Only boat docks, boat launching ramps and fueling facilities may be located within the one percent (100-year) flood plain. Fuel storage tanks shall be located on the upland area outside of the one percent (100-year) flood plain, and shall be designed to contain spills.
 - (11) Boat launching/docking/marine facilities must provide vehicular-trailer parking at the rate of one space per boat if public launching is allowed.

Sec. 4.2.23 Rural Commercial (RC-1) zoning classification.

- A. Intent of classification. The Rural Commercial classification is intended to provide for agricultural related commercial uses that would be appropriate on Rural Lands not located in a Rural Activity Center. All undeveloped commercial parcels located in the Rural Lands shall rezone to this reclassification prior to applying for development approval.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.
- C. Development Standards. See table 2.4-6 below.
- D. Special Requirements
 - (1) All setbacks shall be measured from the outside wall of buildings or structures and from the concrete curb surrounding gas pumps; however, eaves, roof overhangs, or pilasters may protrude two feet into a required setback.
 - (2) All uses allowed in this zoning classification shall be located within an enclosed structure with the following exceptions:
 - (a) Farm building construction yard, bulk gypsum, lime, ground limestone or sulfur, farm storage structures, farm

equipment, implements and supplies, and similar uses with outdoor activities and outside storage of materials. Components and finished goods shall be fenced and screened from view from surrounding properties.

(b) Temporary storage or parking of farm tractors, machinery and equipment, farm irrigation equipment, horse trailers and farm wagons, which are for inventory or in for repair, shall be in areas where they are screened from view from adjacent properties having dissimilar land uses.

- E. The display of farm tractors, machinery and equipment, farm irrigation equipment, horse trailers and farm wagons, which are for sale or lease, may be exhibited in the front setback.
- F. Buffering Requirements: The table below is a modified version of Table 6.8-2 of the Land Development Code and provides the type of buffer required between a proposed use and an existing use, or in the absence of an existing use. Refer to Section 6.8.6 for additional requirements.

Sec. 4.2.24 Rural Activity Center (RAC) zoning classification.

- A. Intent of classification. The Rural Activity Center classification is intended to provide for the shopping and limited services needed by residents in the rural area, and encourage and allow for mixed use nodes of residential (single-family and multi-family), commercial uses, and agricultural-related commercial uses to meet the daily needs of residents in the Rural Area to reduce trips to the urban areas of the county for daily needs and services.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.
- C. Development Standards. See table 2.4-6 below.
- D. Special Requirements.
 - (1) Retained zoning. All property located in a Rural Activity Center as of the adoption date of this Code which is zoned B- 1, B- 2, B-3, B-4, B-5, M-1, or M-2 shall retain its respective zoning district, however, uses shall be limited to the uses designated above for a Rural Activity Center.
 - (2) Proposed rezoning. Vacant property shall retain its respective zoning classification until such time as the property is to be developed. The property shall then be rezoned to RAC, Rural Activity Center District.
 - (3) Single family dwelling units will be allowed on the second floor above shops or stores, or as attached ground floor units at the rear of the business, or as detached dwelling units at the rear of the shop or store. Dwelling units shall not exceed the density of two dwelling units per gross acre and are primarily for use by the business owner or employees.
 - (4) Residential development within the Rural Activity Centers shall be permitted at a density of up to two dwelling units per gross acre on properly zoned parcels qualifying for alternate development standards in Article 3, or on a non- contiguous parcel of record in the Rural Area of the as set forth in Appendix A of the Comprehensive Plan and set forth in Section 4.3.2 of the Land Development Code
 - (5) All setbacks shall be measured from the outside wall of buildings or structures and from the concrete curb surrounding gas

pumps; however, eaves, roof overhangs, or pilasters may protrude two feet into a required setback.

- (6) All uses allowed in this zoning classification shall be located within an enclosed structure with the following exceptions:
 - (a) Farm building construction yard, bulk gypsum, lime, ground limestone or sulfur, farm storage structures, farm equipment, implements and supplies, and similar uses with outdoor activities and outside storage of materials. Components and finished goods shall be fenced and screened from view from surrounding properties.
 - (b) Temporary storage or parking of farm tractors, machinery and equipment, farm irrigation equipment, horse trailers and farm wagons, which are for inventory or in for repair, shall be in areas where they are screened from view from adjacent properties having dissimilar land uses.
 - (c) The display of farm tractors, machinery and equipment, farm irrigation equipment, horse trailers and farm wagons, which are for sale or lease, may be exhibited in the front setback.
- E. Buffering Requirements: The table below is a modified version of Table 6.8-2 of the Land Development Code and provides the type of buffer required between a proposed use and an existing use, or in the absence of an existing use. Refer to Section 6.8.6 for additional requirements.

Sec. 4.2.25 Recreation Vehicle Park (P-RV) zoning classification.

- A. Intent of Classification. The Recreational Vehicle Park classification is intended to provide for the rental of areas or spaces that may include manufactured homes, park models, camper and tent vehicles, fifth wheel travel trailer, travel trailers, camping trailer, truck camper, motor home, van conversion, tent vehicles and tents, cabins or bunk house sleeping quarters. The uses allowed in this district may be water-related, water-dependent, or natural resource dependent and are necessary for the support of the guests and the immediate population.
- B. Commercial Zoning District Intent and Purpose. See table 2.4-5 below.
- C. Development Standards
 - (1) Minimum Lot Area:
 - (a) 1,500 square feet for Park model or travel trailer, without additions
 - (b) 2,400 square feet for Park model trailer, with additions
 - (c) 4,000 square feet for Manufactured homes
 - (2) Minimum Lot Width:
 - (a) 30 feet for Park model or travel trailer, without additions
 - (b) 35 feet for Park model trailer, with additions
 - (c) 40 feet for Manufactured homes
 - (3) Maximum Building Height: 40 feet
- D. Setbacks
 - (1) Setbacks in Recreational Vehicle Parks designed and constructed prior to June 11, 1992 shall have front, side, and rear

setbacks of 8 feet for main structures, and 10-foot rear and side setbacks for accessory use structures.

(2) Minimum Front Setback:

(a) 0 feet for Manufactured home and Park model sites if parking is provided elsewhere, this setback may be reduced to 8 feet.

(3) Minimum Side Setback:

(a) 15 feet for Manufactured home sites

(b) 15-foot separation unit to unit or unit to addition for Park Models

(4) Minimum Rear Setback:

(a) 10 feet for Manufactured home or Park model sites.

(5) Accessory uses (where permitted) require a 10 feet separation between additions, and must be located in a side or rear yard only. Refer to Section 4.3.5.D for additional accessory structure standards.

E. Special Requirements

(1) A park shall consist of two or more units.

(2) All side setbacks shall be measured from the wall of one unit or addition to the wall of the adjacent unit or addition.

(3) Outdoor ground lighting shall not cast direct light on offsite dwellings.

(4) A service building equipped with toilets, lavatories, showers, and laundry facilities shall be provided.

(5) All additions on individual spaces must be constructed to standard building code.

(6) Indoor, outdoor display or storage is limited to permitted uses and must adhere to buffering requirements as outlined in Sec. 6.8.6 of this Code.

(7) Under skirting shall be provided for all units used for rental purposes and for mobile homes that rent spaces for more than 12 months.
