RE: Submittal of Oak Shores PUD application

Mr. Varadin,

Our office is submitting a PUD application for 176 detached single family residential homes. At the direction of your office, a partial plat vacation application has been submitted to Marion County. This application is requesting the vacating of a portion of parcel 9064-1793+05 and the entire parcel 9064-1799+01. This site is currently designated High Residential by the Comp Plan. In 1988, case 080509Z rezoned this property from R-1 to PUD which allowed for 382-unit multi-family development. This PUD expired. Then in 2022, case 220712Z was submitted for 260 villa units. This application was denied. The site was reverted to R-1 since the original PUD expired. This new PUD being proposed to allow detached single family homesites. This is compatible with the surrounding area. This site has an existing established Highschool to the west. This development will accommodate school facility along with incoming residents new to the area. A proposed 15' type C buffer is being proposed along the school boundary. To the east and south are residents on larger tracts zoned A-1. Please note we intend to install a type E buffer with at least 45' separation from the eastern and southern boundaries. The northern boundary is adjacent to existing lots and DRAs within the Silver Springs Shores Unit 64 plat. There is 123' separation from buildable area to the lots in that plat. This mainly comprises of a 100' electric easement. Utilities will be provided by Marion County Utilities. Upgrades and improvements will be handled through the DRC process.

Enclosed are the following items:

- Executed Rezoning application to PUD
- Deed as proof of ownership
- Sunbiz Detail
- MCPA card for parcels
- Approval letter for Traffic Methodology AR 32879
- Plan Set (including concept plan)

I believe this meets the minimum requirements to submit the PUD application for consideration. We reserve the opportunity to provide additional documentation as needed
