LDC 2.12.8 - Current boundary and topographic survey

CODE states current boundary and topographic survey (one-foot contour intervals extending 100 feet beyond the project boundary) based upon accepted vertical datum. Surveys will be less than 12 months old and accurately reflect current site conditions, meeting standards set forth in Ch. 5J-17 FAC. Alternate topographic data may be accepted if pre-approved by the Marion County Land Surveyor.

(Ord. No. 13-20, § 2, 7-11-2013)

APPLICANT requests a waiver to use current survey, as Mass Grading has been approved, and construction is active on site.

LDC 6.13.8.B(7) - Stormwater conveyance criteria

CODE states Sizes. Stormwater conveyance pipes and cross culverts shall be a minimum of 18 inches diameter or equivalent. Driveway culverts shall be a minimum of 15 inches diameter or equivalent for residential use and a minimum of 18 inches diameter or equivalent for commercial use. Roof drains, prior to connection to the overall stormwater system, are exempt from minimum diameter requirements.

APPLICANT requests a waiver to use storm pipes less than 18 inches, including supporting calculations.

LDC 6.12.12.D - Sidewalks

CODE states at the discretion of the Development Review Committee, in lieu of construction along external streets, the developer may pay a sidewalk fee to the County in an amount necessary to complete construction. This amount shall be determined by the project engineer and approved by the County with payment required prior to final plan approval. The County may use these funds toward the construction of sidewalks throughout the County based on priorities established by the Board.

APPLICANT requests a waiver for approval to pay fee in lieu of sidewalk construction.

- 6.4. Jodi & Jason Swoap - Waiver Request to Water Main Extension**

Project #2025050024 #32827 Parcel #39404-001-00
Swoap Jason Lee

LDC 6.14.2.B(1)(a) - Connection Requirements

CODE states new development in the Urban or Rural area shall connect to a centralized water system with available capacity if a water line is within a connection distance of 400 feet times the total number of Equivalent Residential Connections (ERCs).

APPLICANT requests waiver because the cost to tie into this water line is expensive. Also, this line was recently ran possibly as a pass to reach a development nearby. I am back far off the road and a well seems way more practical. The pressure and if line breaks may be an issue. I want to have a well.

- 6.5. Gemini Farms - Waiver Request to Establishment of County MSBU**

LDC 2.16.1.B(8)(G) - Establishment of County MSBU

CODE states A County MSBU shall be established for the maintenance of the improvements created by this division prior to final approval and recordation. A waiver to this provision may only be granted by the Board upon review and recommendation by the DRC.

APPLICANT requests a waiver as maintenance of the improvements created by this division will be maintained by the Gemini Farms HOA.
