REVISION	DATE

APPLICANT NARRATIVE AND PROPOSED FINDINGS OF FACT

Sallee Horse Vans, Inc. ("SHV") is a national horse transportation company with locations in Ocala, Lexington, Kentucky, and Elmont, New York. SHV has been in operation since 1963 and has operated in Ocala for over 40 years. Their current Ocala location, which they've been at for approximately 25 years, is a 2-acre parcel in a commercial area near the Amazon Fulfillment Center. SHV has grown significantly over the past few years and is currently under contract to purchase the subject property, which is a 10-acre parcel on Highway 326, just west of I-75 and east of the Farmland Preservation Area, to serve as its main office and headquarters in Ocala.

Due to SHV's recent and anticipated growth, they require more space to increase the availability of parking and to provide overnight stalls and pasture for horses, when circumstances require it. SHV's current location only has available parking for approximately 12 trucks and trailers and no overnight stalls or pasture.

While SHV currently has capacity to park 12 trucks and trailers, the nature of their business makes it so that daily ingress and egress of semi-trucks averages 3-4 dispatches per day. When a semi-truck is dispatched, it is generally gone for approximately a week while it delivers the horses to various locations throughout the United States and Canada. Accordingly, the impact is relatively minimal. Smaller pickup truck and gooseneck trailer combinations provide local transportation and also average approximately 3-4 dispatches daily.

SHV will use the existing structure on the property as its office and intends to eventually construct new horse stables. The property would support parking of thirty (30) semi-truck & trailer combinations and eight (8) fifth wheel & trailer combinations. Horses aren't generally kept on site, but occasionally a horse will be picked up the day before it is to be transported elsewhere, and SHV would like to have a safe and comfortable place for the horse to stay during that time.

As mentioned, the subject property is on highway 326, just west of the interstate. Additionally, less than a mile west of the subject property, also on highway 326, another horse transportation company operates on a 3.5 acres parcel. Just east of that horse transportation company is a diesel truck parts supplier which parks several trucks and other vehicles on site. Less than a half mile west of the subject property, just off of highway 326, there is a truck repair shop.

While the subject property is zoned A-1 (General Agriculture), less than a mile to the east of the property is B-2 (Community Business), B-4 (Regional Business), B-5 (Heavy Business), and M-2 (Heavy Industrial) zoning. To the west of the subject property, there is RC-1 (Rural Commercial), B-4 (Regional Business), and RI (Rural Industrial).

These current operations and zonings in the area near the subject property show that the suggested use of the subject property is compatible with and fits into the current zoning in this area. The subject property is right between the farmland preservation area and I-75, which makes it the perfect location for a horse transportation operation.

In order to increase compatibility with the adjacent properties, the applicant proposes the following conditions of approval:

- (1) No significant mechanical repairs on commercial vehicles shall take place on the subject property;
- (2) An 8-foot opaque fence shall be erected between where commercial vehicles are parked and the eastern boundary of the subject property;
- (3) Parking of trucks will be on an impervious surface;

- (4) Applicant will maintain the existing vegetated buffering along the perimeter of the subject property;
- (5) Applicant will upgrade the current driveway apron to commercial standards;

Based on the foregoing conditions, the proposed use is compatible with adjacent properties based on the following findings of fact set forth in Section 2.8.2, Marion County Land Development Code:

1. Provision for ingress and egress to property and proposed structures thereon with particular reference to automotive and pedestrian safety and convenience, traffic flow and control and access in case of fire or catastrophe.

Existing structures were properly permitted and remain compliant with the foregoing requirement and all requirements of the Land Development Code. The existing driveway apron will be upgraded to commercial standards and an impervious surface will be installed where commercial vehicles are parked.

2. Provision for off-street parking and loading areas, where required, with particular attention to the items in (1) above and the economic, noise, glare, or odor effects of the SUP on adjoining properties and properties generally in the surrounding area.

All parking will be conducted on the subject property, as shown on the conceptual plan.

3. Provisions for refuse and service area, with particular reference to the items in (1) and (2) above.

Applicant will contract with a professional refuse collection service for regular removal and disposal of all refuse.

4. Provision for utilities, with reference to locations, availability and compatibility.

Existing utilities are established and will remain in their current condition and location unless permits are approved concerning any material change.

5. Provision for screening and buffering of dissimilar uses and of adjacent properties where necessary.

There are existing vegetated and treed buffers along the perimeter of the subject property. Applicant will additionally install an 8-foot opaque fence between any commercial vehicle parking area and the residential properties east of the subject property.

6. Provision for signs, if any, and exterior lighting with consideration given to glare, traffic safety, economic effects and compatibility and harmony with properties in the surrounding area.

A non-electric sign, compliant with the Marion County LDC, will be erected at the entrance of the subject property. Any additional exterior lighting installed will be properly permitted and pointed down and inward and shielded to mitigate glare impacting surrounding properties.

7. Provision for required yards and other green space.

The parcel is approximately 10 acres. The front portion of the property would be maintained as pastures/paddocks and parking would be conducted in the rear half of the property, on approximately 3 acres of land, providing sufficient open space.

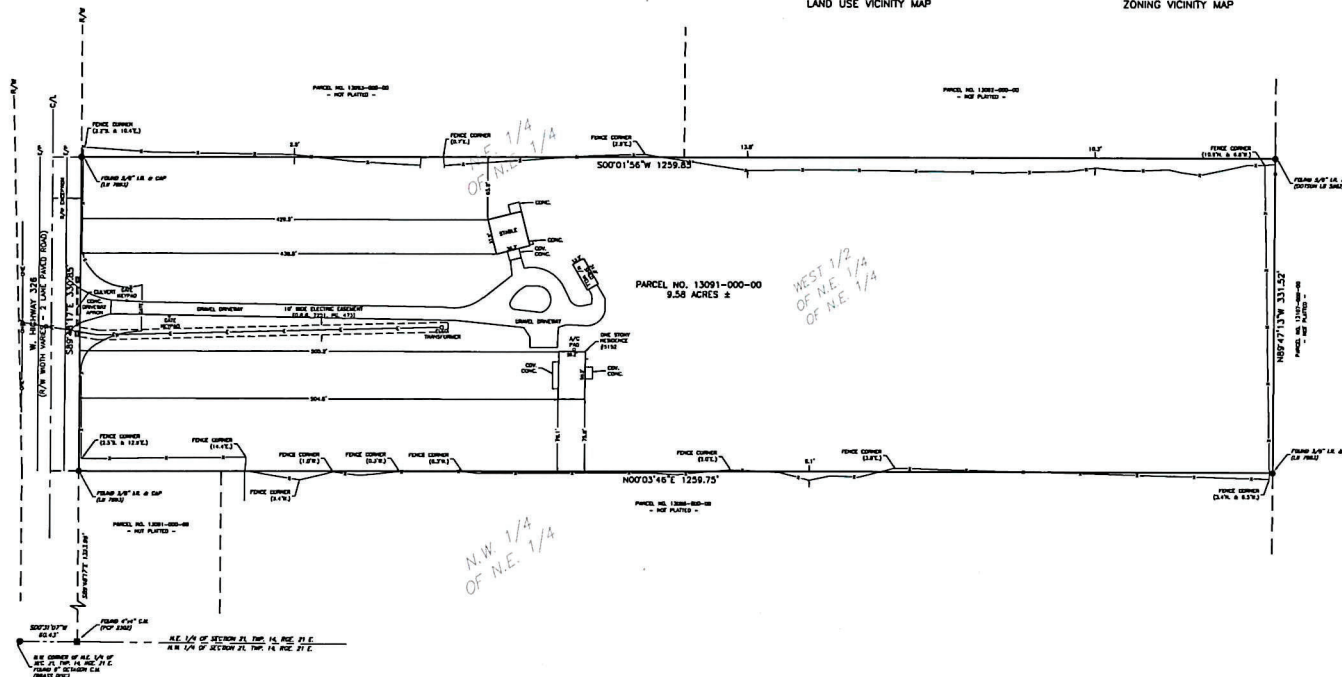

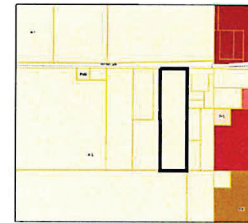

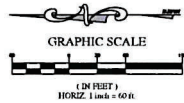

8. Provision for general compatibility with adjacent properties and other property in the surrounding area.

Attachment A

As mentioned, there are several businesses in the location that offer identical services to the applicant as well as businesses that support the service and maintenance of commercial vehicles. Additionally, the proposed use of the property is equine related, which fits into the rural character of this area as well.

9. Provision for meeting any special requirements required by the site analysis for the particular use involved.

Applicant is willing to accommodate reasonable special requirement.

LEGAL DESCRIPTION:

THE WEST 1/4 OF THE NORTHEAST 1/4 OF THE NORTHEAST 1/4 OF SECTION 21, TOWNSHIP 14 SOUTH, RANGE 21 EAST, LESS AND EXCEPT ROAD RIGHT-OF-WAY FOR STATE ROAD 326, LYING AND BEING SITUATE IN MARION COUNTY, FLORIDA.

SURVEY REPORT:

1. FIELD MEASURED BEARINGS SHOWN HEREON ARE BASED ON THE FLORIDA STATE PLANE COORDINATE SYSTEM, FLORIDA WEST ZONE, NAD-83, AND DERIVED FROM THE L-NET NETWORK.
2. VERTICAL DATA IS BASED ON MARION COUNTY VERTICAL CONTROL POINT "C326-1", PUBLISHED ELEVATION = 73.240, NAVD-88.
3. FIELD SURVEY DATE: 11-18-2024.
4. THE LEGAL DESCRIPTION AND TITLE INFORMATION REFLECTING OWNERSHIP, RIGHTS-OF-WAY, OR EASEMENTS OF RECORD, WERE FURNISHED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY, FILE NO.: 11939913, COMMITMENT DATE: 08/14/2024.
5. ALL RIGHTS-OF-WAY SHOWN HEREON ARE PHYSICALLY OPEN UNLESS OTHERWISE STATED.
6. UNDERGROUND IMPROVEMENTS OR UTILITIES WERE NOT LOCATED.
7. THIS PROPERTY APPEARS TO BE IN A ZONE "X" (AREA OF MINIMAL FLOOD HAZARD) ACCORDING TO THE FEMA FLOOD INSURANCE RATE MAP (FIRM) COMMUNITY NUMBER 120100, PANEL 0314, SUFFIX E, WITH AN EFFECTIVE DATE OF 8/28/2008.
8. THIS SURVEY MEETS THE STANDARDS OF PRACTICE CONTAINED IN CHAPTER 5J-17.050 THROUGH 222, FLORIDA ADMINISTRATIVE CODE AND THE ACCURACY OBTAINED BY MEASUREMENT AND CALCULATION OF A CLOSED GEOMETRIC FIGURE WAS FOUND TO EXCEED THE MINIMUM RELATIVE DISTANCE ACCURACY FOR RURAL LAND USE.
9. UNLESS IT BEARS THE DIGITAL SIGNATURE AND CERTIFICATION OR THE PHYSICAL SIGNATURE AND SEAL OF THE LICENSED SURVEYOR AND HAPPER, THIS MAP IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT VALID.
