LDC 6.8.7.F(2) - Shade Tree

CODE states One shade tree shall be provided per 50 lineal feet of divider median.

APPLICANT requests a waiver from landscape requirement for shade trees in parking islands where the shade trees are within 20' of the building. Request that these may be replaced with accent trees referring to section 6.8.8.D of the LDC that states "Large trees shall not be located within 20 feet of a building. Accent/ornamental trees shall be located sufficiently..."

- 6.2. **SR 200 & Hwy 484 Master Infrastructure - Preliminary Plat -33175 - Waiver Request to Preliminary Plat in Review**
Parcel #: 35341-002-01 # WaiverPIR-001043-2026

LDC 6.8.6.K(2) - Buffers

CODE states B-Type buffer shall consist of a 20-foot wide landscape strip with a buffer wall. The buffer shall contain at least two shade trees and three accent/ornamental trees for every 100 lineal feet or fractional part thereof. Shrubs and groundcovers, excluding turfgrass, shall comprise at least 50 percent of the required buffer.

APPLICANT - requests waiver to remove the buffer wall requirement within the B-Type buffer located along the north property line, adjacent to the A-1 zoned property. Based on existing land uses for both properties being commercial, the intent of LDC Sec. 6.8.6. to screen commercial properties from agricultural properties, is not consistent. This waiver request intends to keep the B-Type buffer width requirement of 20' while only removing the wall requirement due to existing topography and native vegetative buffers. Existing topography along the property line varies to the extent that a buffer wall would serve no true screening benefit; vegetation within the A-1 property enhances this. Please see Exhibit EX-01/EX-02.

LDC 6.12.2 Right-of-way

CODE states Table 6.12.1 Subdivision Local (private) 50' + 5' right-of-way (ROW) easement on each side

APPLICANT - requests waiver to reduce the minimum private right-of-way width to 40 feet with sidewalk on one side in lieu of both. The 40-foot right-of-way provides adequate area for vehicular access, emergency access, utilities, drainage, and pedestrian connectivity while reducing impervious area. The road will remain the responsibility of the owner/private maintenance entity and will not create any maintenance obligation for Marion County. See enclosed County Typical Section TS-011 and Exhibit EX-03.

- 6.3. SR 200 & Hwy 484 Master Infrastructure - Major Site Plan - 33511 - Waiver Request to Major Site Plan in Review**
Parcel #: 35341-002-01 # WaiverPIR-001046-2026

LDC 2.1.3 - Order of Plan Approval

CODE states Plans listed below may be reviewed concurrently, but must be approved in the order listed below, when applicable and when the proper land use and zoning are in place: A. Master Plan. B. Preliminary Plat. C. Improvement Plan. D. Final Plat. E. Major Site Plan. However, a Major Site Plan can be substituted for the Improvement Plan and can be approved before approval of the Final Plat in cases when the infrastructure improvements supporting the plat are proposed as part of the Major Site Plan application.

APPLICANT requests to modify the order or plan approval for the proposed development to substitute the Improvement Plan with the ongoing Major Site Plan application approval for Final Plat approval. This request is consistent with discussions held with County Staff during pre-application meetings and existing comments from the Major Site Plan application. The applicant assumes the risks of proceeding with Engineering design required at the Major Site Plan application level while approval of the plat is still pending.

- 6.4. Self Storage SR 200 & Hwy 484 - Major Site Plan 000831 - Waiver Request to Major Site Plan in Review**
