Per your request, Razorback LLC is pleased to provide the following pricing per the identified scope of work.

SCOPE OF WORK

Razorback proposes to remove and replace the existing 5k hydro tank with a new ASME certified tank. All appurtenances will be included to match the existing contents on the tank. This will be turnkey to include the tank, crane, transports, appurtenances, and samples. We plan to be using the existing saddles. Any additional work needed will require a change order.
