Subject: Notes for 2500 HD Truck RE: QUOTE REQUEST-Fire

Marion County Fire Rescue (MCFR) is requesting approval to purchase (1) heavy-duty pickup truck for the Division Chief of Logistics to efficiently carry out essential duties and responsibilities related to logistics, emergency preparedness, and disaster response operations. MCFR received approval from Marion County Admin and Board of County Commissioners for additional Division Chiefs positions. The positions were filled, however we are using our aged spare command vehicles for these positions.

The Division Chief of Logistics is tasked with hauling heavy-duty trailers and specialized equipment. Current vehicles in the fleet do not have the required towing capacity to safely transport large, heavy loads. A heavy-duty pickup truck will ensure the Division Chief can reliably transport trailers and equipment necessary for field operations, which often includes essential supplies, tools, and machinery for disaster relief.

The Division Chief is an integral part of the county's Task Force 8 response during natural disasters, often deploying with the task force team to areas in need of assistance. A heavy-duty pickup truck will provide the necessary capacity and durability for these high-pressure situations, allowing the team to carry essential gear, tools, and equipment to disaster zones in a timely and efficient manner.

The purchase of a heavy-duty pickup truck for the Division Chief of Logistics is an essential investment in the county's emergency response and logistics capabilities. This vehicle will directly support the Division Chief's ability to manage logistics operations, transport critical equipment, and deploy effectively during natural disasters. By ensuring the logistics team has the appropriate resources, we enhance both the safety and success of our county's disaster response efforts

Karen,

Good morning.

I have prepared three different quotes. We have a fleet cancelled 2500HD that might work and the lead time would be quicker as we would just need to order lights and equipment. The two Ford quotes are priced to order and the lead time would be greater than 6 months.

AJQ	Description	Notes	Lead Time	Price
60279	Chevy 2500HD Dsl Crw 4WD	Truck In Stock (would need to order lights)	90-120 days	78,606
60309	Ford F-350 SRW Dsl Crw 4WD	Priced to Order	180+ days	82,343
60311	Ford F-250 Dsl Crw 4WD	Priced to Order	180+ days	81,066

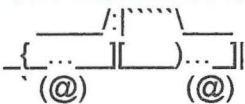

Best Regards,

Chris Wilson
