Good Morning Jared,

Please see the response to your concern below.  
Thanks.

.....  
Good Morning Karen,

I spoke w/ Randy at Quality (Body Company for Rotobec Grapples) and this was his response:

Sally,

Yes, these booms and bodies will be identical to the last ones we built. There is one nice upgrade to the grapple (clamshell attachment). Rotobec has a newer and improved version of the 045W waste grapple, and it is now called the 110WG. It looks like the County's existing 045W grapples, but they improved the cylinders and hydraulic hose routing which is a good thing.

Randy
