Subject: About that proposed chicken processing plant.....

I live about a mile from the proposed site . I strongly disagree with this plant being located here for health and environmental reasons. Also the smell especially during the summer months. Plants such as this should be located far away from neighborhoods.

Thank You
Dan Adams

Subject: NO to Chicken processing plant in Micanopy!

To whom it may concern,

Hello, I am a resident in this neighborhood and just today was informed of this possible chicken processing plant. I live on NW 190 st. And this will directly affect my quality of life, due to the runoff of processing thousands of chickens daily contaminating my water, filling the air I breathe with pathogens and bring an increase of large truck traffic to our streets.

This is a rural, yet family oriented neighborhood that also is home to a family park, an elementary school, churches, monastery, cemeteries & some small local family farms. We do value the quality of life we have here and purposely chose this area to live for the serenity and beauty of the area. We enjoy being outside and the clean air of this rural area. Please do not allow this chicken processing plant to open here.

We are also very concerned about the value of the property the doors this would open to more animal processing facilities that would further degrade this beautiful neighborhood.

Micanopy is known for its serene quaintness and quiet beauty, please preserve that.

There are other locations away from families that would be more suitable.

Thank you for your careful consideration of this matter.
