SUBJECT: MSBU Area Lights Program for Kingsland Country Property Owners Association

Thank you for sending Pete Hodges to the Board meeting on March 9, 2021. He was highly informative regarding the MSBU area lights program for Whispering Pines and Forest Glenn that you both have been working on. We were especially appreciative he provided specific timelines and costs associated with this initiative.

Based on the information provided by Pete and previous information and discussions with Marion County and affected homeowners, the Board of Directors is requesting that you move forward with the area light program for Whispering Pines and Forest Glenn.

The Board is hopeful that the legal process for implementing this program can be completed in the next few months so that the tax assessment can be included on Marion County's 2021 tax roll for the homeowners in the target area, thus funding the program.

Please let us know if the Board can assist in any way and thank you in advance for your department's time and effort spent on this area light plan.

Sincerely,

The Board of Directors
KCPOA
